RESOLUTION

ON THE

MANAGEMENT BY GOVERNMENT OF PRIVATE ESTATES

IN THE

CENTRAL PROVINCES

DURING THE YEAR ENDING SEPTEMBER 30TH, 1887.

NAGPUR:

PRINTED AT THE CHIEF COMMISSIONER'S OFFICE PRESS.

1888.

[PRICE ONE RUPEE.]

RESOLUTION

ON THE

MANAGEMENT BY GOVERNMENT OF PRIVATE ESTATES

IN THE

CENTRAL PROVINCES

DURING THE

YEAR ending 30th SEPTEMBER 1887.

Extract from the Proceedings of the Chief Commissioner, in the Revenue Department, No. 862 S., *dated* 14*th July* 1888.

READ.—Reports by Deputy Commissioners, with remarks by Commissioners, on the working of estates under Government management, during the year ending September 30th, 1887.

RESOLUTION.—The tendency of the work of the Court of Wards to increase was noticed in last year's Resolution. During the year under review the Court relinquished the management of four estates with an aggregate area of 50 square miles and a rental of Rs. 13,283, but assumed that of seventeen estates the area of which amounted to 652 square miles and the rental to Rs. 83,885-4-0. This number includes the important estate of Pandaria in the Bilaspur district, with an area of 487 square miles and a rental of Rs. 29,308, the proprietor of which died during the year, leaving two minor sons.

In ten of the seventeen estates taken up during the year the proprietor is a minor or female. In the remaining cases the ground for interference was indebtedness, and management was assumed at the request of the proprietor who was declared under Section 7 of the Government Wards Act to be incapable of managing his own affairs. Four of these estates are in the Narsinghpur district. There can be no question of the immense benefit which results to individual proprietors from the interference of the Court of Wards on their behalf, and it is clear from the number of applications which are received and from the persistency with which they are urged that malguzars fully appreciate this benefit. It may also be urged that the amount of indebtedness amongst the class of village proprietors is in some parts of the Provinces so large that special measures are called for, and that the utilization of the Government Wards Act as an Encumbered Estates Act is a convenient method of meeting the difficulty. But, as the Chief Commissioner remarked last year, it is by no means clear that the grant of assistance has not in some districts in past years been carried too far, and it is to be feared that this tendency has itself conduced to the indebtedness which it is intended to obviate. In the great majority of instances this indebtedness is the result of gross extravagance, or of carelessness which is almost equally culpable. The main deterrent in such cases is the fear of ruin; and the probability of securing with little trouble the intervention of Government must lessen the force of this very considerably. The Chief Commissioner is, however, as he has already intimated, willing to sanction the intervention of the Court of Wards on behalf of indebted proprietors belonging to old and formerly influential families, who can be shown to be deserving of assistance, on condition that the proprietors are formally disqualified under the Act from incurring fresh loans whilst their estates are under management. The importance of insisting on this condition was noticed in last year's Resolution

and is again brought out in the present reports. It is satisfactory that arrangements were made during the year to bring formally under the Court of Wards six important estates in the Nagpur district and two in the Seoni and Betul districts, five of which were previously managed under an agreement leaving the proprietor free to incur fresh liabilities. Mr. Mackenzie must again insist on the question being taken up in the case of all estates, where this has not already been done, in the manner suggested in paragraph 2 of last year's Resolution.

2. The fact must not be lost sight of that the taking over of the estates of indebted proprietors adds very greatly to the work of Government Officers, if the estate is managed as it should be. Proposals for assuming the management of such an estate must invariably show that a fair provision can be made for the cost of management. The Chief Commissioner is indeed of opinion that all estates under Government management should subscribe towards the expenditure which their control throws on the officers of the Administration, as well as towards the cost of their immediate managing staff. Such a rate is levied in other Provinces and Mr. Mackenzie has under consideration the expediency of introducing it here.

3. Excluding from consideration the estates taken up during the year, for which complete accounts have not as yet been submitted, the debts of estates under management at the close of the year aggregated Rs. 11,39,673, which is less by Rs. 1,84,726 than the corresponding sum at the close of the year preceding. The figures relating to the following estates are noticeable either from the magnitude of the debt or from the slowness with which it is being liquidated:—

District.	Estate.	Original debt.	Amount paid off during year under review.	Compare amount paid off during preceding year.	Debt at close of year under review.	No of years during which estate has been under management.
		Rs. a. p.	Rs. a. p	Rs. a. p	Rs. a. p.

Bilaspur ...	Kanteli ...	32,000 0 0	1,849 0 0	1,720 0 0	26,831 0 0	5
Sambalpur ...	Phuljhar ...	53,000 0 0	.....	230 0 0	53,000 0 0	2

The unsatisfactory progress made in paying off the debt of the Etawah estate has been noticed in the two last Resolutions. The Deputy Commissioner has reported that the proprietor is even now incurring fresh debts and a report on the position of the estate has been called for. The very small progress which has been made during the two last years in paying off the debts of involved estates in the Jabalpur district is due to the failure of the Court of Wards to collect the rental, which will be noticed again further on. Had the rental of the three estates in the table been collected in full the payments made during the year would have been larger by Rs. 16,000, Rs. 5,000 and Rs. 15,000 respectively. The same remark applies to the Narsinghpur district, where very large balances have also been allowed to accumulate. Had this not been the case the instalments paid off for the Narsinghpur and Chawarpatha estates would have been larger by Rs. 18,000 and Rs. 8,000 respectively, and those paid off for the two small estates of Bahrora and Deonagar would have been larger by Rs. 1,000. Satisfactory progress has on the whole been made in the other districts except in Bilaspur, where the amount paid off of the Kanteli debt should certainly have been larger. A balance of Rs. 6,966 was allowed to accumulate. The Chief Commissioner observes that the sum allowed for the personal expenses of the proprietors was apparently in some cases much too large. The following are the most prominent instances of this:—

District.	Estate.	Debt at close of year.	Sum spent on personal expenses.
		Rs. a. p	Rs. a. p.
Jabalpur ...	Bhoragarh	85,179 11 0	2,215 15 0
	Lamkana	17,374 9 11	1,738 13 9
	Ponda	31,546 0 0	3,105 13 0
Nagpur ...	Chachur	1,05,424 0 0	5,336 0 0

The Commissioners of Jabalpur and Nagpur will be asked to explain why so large an expenditure should be continued. The allowances of proprietors who burden the Government with the management of their private affairs should be strictly limited.

4. The receipts of the year (excluding recoveries of the principal of loans and loans raised for payment of debt) amounted to Rs. 15,34,446 of which Rs. 9,60,426 or 62 per cent consisted of rents. The income from *sir* land, forests and manorial dues amounted to Rs. 1,46,843. Two-thirds of the forest receipts were collected in estates in the Balaghat and Raipur districts.

The unsatisfactory position of the rental accounts in some districts was prominently noticed in last year's Resolution, and the Chief Commissioner regrets to see little or no improvement in the year under review. The following figures

show the percentages of the total rental demand and of the current rental demand which remained uncollected in each division:—

Division.	Percentage on demand of balance uncollected.	
	Total demand.	Current demand.
Jabalpur	32	24
Narbada	22	13
Nagpur	8	6
Chhattisgarh	7	4

The collections of the Nagpur and Chhattisgarh divisions are satisfactory, especially as the rice crop was an exceedingly poor one. The amount of arrears in the Jabalpur and Narbada divisions is surprisingly large and calls for special explanation. The districts which account for the bad results in the Jabalpur division are Damoh and Jabalpur. In Saugor only 9 per cent. was left uncollected and in Mandla and Seoni the balances were still smaller. In the Narbada division the Betul district shows worst as regard collections on account of current demand, but there are heavy arrears for previous years in Narsinghpur as well as in Betul. The balances on current demand amounted to 10 per cent. in Hoshangabad and 9 per cent. in Chhindwara. It is noted that the Deputy Commissioner of Hoshangabad reports that the balance would have been much smaller had it not been for inefficiency on the part of the managing staff.

Details of the amount of the balances left outstanding during each of the past two years in the Damoh, Jabalpur, Narsinghpur and Betul districts are :—

District.	1885-86.				1886-87.			
	Total demand.	Current demand.	Percentage uncollected		Total demand.	Current demand.	Percentage uncollected	
			Of total demand.	Of current demand.			Of total demand.	Of current demand.
	Rs.	Rs.			Rs.	Rs.		
Damoh ...	15,845	12,738	25	19	13,449	9,859	64	59
Jabalpur ...	1,82,095	1,23,941	46	21	2,08,517	1,24,381	42	37
Narsinghpur .	1,36,089	90,838	39	25	1,44,215	94,320	26	11
Betul ...	12,666	8,882	39	27	14,150	9,219	34	22

The explanation given in the Reports for leaving this mass of rent uncollected is the shortness of the crops of the past two years, but Mr. Mackenzie is unable to accept this explanation as entirely satisfactory. It is not clear why if 90 per cent of the rental could be collected in Saugor, so little as 36 per cent and 50 per cent was collected in Damoh and Jabalpur, or why the Deputy Commissioner of Betul could only collect 66 per cent, when in Hoshangabad 85

per cent was collected. The collections on account of current demand in the Narsinghpur district show a great improvement when compared with those of the year preceding, but the progress made in collecting the heavy arrears outstanding was not satisfactory. The wheat crops of 1884 and 1887 were undoubtedly poor ones, but their deficiency was not nearly so serious as that of the rice crop in the southern and eastern districts, where the outstandings are nevertheless of comparatively small amount. Moreover the Chief Commissioner would have expected to see more evidence of energy on the part of the Court of Wards in the way of legal proceedings for the recovery of arrears. It is surprising that in the Jabalpur district with outstanding arrears amounting to over a lakh of rupees, only 40 suits should have been brought for arrears of rent. A full explanation of the circumstances which have led to the accrual of these large arrears will be called for from the Commissioners of the Jabalpur and Narbada Divisions. Prompt and vigorous action must also be taken to reduce the arrears as the crops of the past season have been remarkably good.

5. The expenditure of the year on current charges amounted to Rs. 10,71,112. This is exclusive of Rs. 6,82,897 which were invested or spent in repayment of debt. The cost of management amounted to Rs. 91,942 equal to 8 per cent. on the income from land. Arrangements are under comtemplation for the appointment of a District Manager to the charge of estates in the Bilaspur district. The number of districts having District Managers is now nine. The Chief Commissioner understands that the appointment of these officials has lightened the work of the Deputy Commissioners very considerably. But their appointment has not in several districts had the effect anticipated of increasing the efficiency of rent collection, and it is apprehended that in some cases the officers who have been selected for the posts are not properly qualified for their very responsible duties. This is a matter which should engage the serious attention of the Commissioners.

6. The only other item in the expenditure of the year calling for notice is the sum spent on estate improvement which only amounted to Rs. 46,996. The Chief Commissioner has recently insisted on the necessity of spending surplus funds on the improvement of estates, instead of allowing them to accumulate or of investing them in loans, and has desired that a plan of operations be drawn up for the improvement of each solvent estate, which should be submitted to and approved of by the Commissioner and be worked up to as funds permit. Mr. Mackenzie is glad to find that practical effect is being given to these instructions.

7. It is to be added that the delay in issuing this Resolution is due partly to the difficulty in obtaining correct accounts from some district officers and partly to delay in printing. Information was outstanding from the Raipur district office till the 23rd April and printing had then to be postponed till the numerous annual reports with which the Press was then burdened were disposed of. The correct preparation of the annual statements will be facilitated by the introduction of a uniform system of accounts, and proposals to this end have been drawn up and are now awaiting the opinion of Commissioners and District officers.

J. B. FULLER,
Offg. Junior Secy. to the Chief Commissioner,
Central Provinces.

The 28th June 1888.

NOTE.

Estates managed under the Court of Wards' Regulations are marked ... ... (*a*)

„ „ Minors' or Lunatics' Act are marked ... ... (*b*)

„ in virtue of agreement with the proprietors are marked... ... (*c*)

Colonel H. M. Rep-ton, Deputy Commissioner.

(*c*) Pitehra.—(*Income Rs.* 45,865, *Liabilities nil*). The proprietor Raja Rajendra Singh will complete his twenty-first year in December 1887 when the estate should be released. He however visited the Deputy Commissioner a few weeks ago and requested that the Court of Wards management may continue for a further period of 3 years and that he may be entrusted with the charge of one of the circles thereof, so as to obtain some insight into the way of managing his estate, before he becomes sole master of it; that he may be treated as a manager during the period of Court of Wards management. His request is creditable to his intelligence and was worthy of consideration, and so was granted, and the Kesli circle which contains thirty-five villages under direct and farm management will be made over his charge, and he is to act as manager assisted by the head karinda and the establishment as before. He will now take up his abode permanently at Kesli and will occupy the building in the fort which has been lately repaired.

During the year very little was spent on the estate, although a large estimate was made for it. The reason is that works were started but not finished, and consequently no payment has yet been made. It will be charged in the next year's account.

(*a*) Garhakota.—(*Income Rs.* 4,986, *Liabilities nil*). The elder of the two brother, namely Harparshad, has attained his majority and requested that the management by the Court of Wards may be relinquished. The younger is still a minor but is willing to live under the guardianship of his elder brother and agrees with his brother to have his estate released.

(*a*) Dhana.—(*Income Rs.* 63,940, *Liabilities nil*). The Ward was married on 27th April 1887 to Anandi Lal Dube of Kangai, the bridegroom selected for her in 1886, and her estate was at her marriage declared to her "stri-dhan" so that it cannot, without her own consent, be appropriated by her husband and his family.

A loan was given to the father-in-law Suraj Pershad Dube of Rs. 9,000 which is repayable in eight years and the interest 6 per cent is payable yearly. Rs. 30,000 were invested in Government securities, and it is proposed to invest a further sum of Rs. 10,000 to cover the capital required to meet the allowance for maintenance of the young couple.

While on tour through the estate the Deputy Commissioner proposed some improvements but as they are not completed yet, no payment has been made for them. They will appear in the following year's returns. Only Rs. 645 were spent on periodical and other necessary repairs.

Considering the general condition of the harvest in this district the collections of rent in this estate are satisfactory. The balance outstanding amounts to Rs. 698-9-9 on account of current demand (Vide Statement IV.) and Rs. 699-10-5 on account of arrears or Rs. 1398-4-2 in all (only 5 per cent in the villages of this district). It is all recoverable and is in the course of realization while Rs. 875-1-6 are in arrears in Patheria of the Damoh district under the management of the Deputy Commissioner of Damoh.

(*c*) Etawa.—(*Income Rs.* 10,941, *Liabilities Rs.* 30,547). During the year under report the estate got an addition to its usual income by the sale of some grain and has therefore been able to provide for a payment or Rs. 3,500 in liquidation of its liabilities, and as the Railway line is to run through this estate it is hoped it may be benefitted.

Information has been received that the Talukdar is incurring fresh liabilities which, if true, frustrates our benevolent designs and steps shall have to be taken to give up the management.

(*b*) Barha.—(*Income Rs.* 2,296, *Liabilities Rs.* 2,798). The rents which were in arrears last year have been realized. After payment of the annual stipulated instalments in liquidation of debt, there is a surplus which may be invested in improving the estate if any object be found on which the money can be profitably spent.

(*a*) **Rehli.** (*Income Rs.* 4,453, *Liabilities Rs.* 379). The estate is not under the direct superintendence of the Court of Wards. The Manager of the estate is Rao Govind Rao, Talukdar of Jeysinghnagar, who is a relation by marriage of the minors. The accounts as received from the manager are herewith submitted. The amount under the head "miscellaneous" is much larger than that shown in the previous year owing to a suit brought by the manager against the Municipal Committee at Saugor. The case has not yet been decided.

The Wards are reported to have enjoyed sound health during the year and are prosecuting their studies at the Saugor High School.

DISTRICT DAMOH.

Lieut.-Colonel T. W. Hogg, Deputy Commissioner.

(*b*) **Bungaon.**—(*Income Rs.* 1,927, *Liabilities nil*). The year under report was not a favourable one to agriculturists owing to the partial failure of both crops. This accounts for the large arrears of rent outstanding, but it is hoped that the arrears will be fully realized during the current year. Arrangements will also be made for investing a portion of the cash balance to the credit of the estate in some profitable manner. The Ward is robust and attends the Anglo-Vernacular School at Hatta, but is irregular in attendance and shows no aptitude for study.

(*c*) **Singrampur.**—(*Income Rs.* 781, *Liabilities Rs.* 4,420). The total liabilities of this estate at the commencement of the year, amounted to Rs. 4,420-7-6. Nothing could be paid during the period under report towards liquidation of debt as receipts and expenditure were nearly balanced. A large part of the rents due could not be realized on account of the seasons having been bad. The balance remaining to be paid off is considerable in proportion to its yield, and it will be some years before the proprietor will be entirely absolved of all his liabilities.

DISTRICT JABALPUR.

Mr. F. C. Anderson, Officiating Deputy Commissioner.

(*a*) **Imlai.**—(*Income Rs.* 19,283, *Liabilities Nil*). Considering the great extent of the estate, the amount of arrears is small being only Rs. 2,369, mostly petty items all of which are recoverable and within time. Rs. 1,061-12-9 had to be written off form the balance owing mostly to the absconding of Gonds, who form the bulk of the tenants of this estate, and are apt to shift their quarters when they have had bad seasons, and have consequently fallen into arrears. Two suits for arrears of rent were filed, and decrees obtained against tenants who declined to pay arrears without sufficient cause. A few more suits have been filed, but as they are pending, they are not shown in Statement VII.

The item of Rs. 6,522-1-7 for personal expenses in Statemeut III requires explanation. In addition to the usual items of private expenditure of the family, are added the expenses incurred on the marriage of the Minor Raja Lalloo Saheb and on the obsequies of his grandmother both of which took place last year (June and July 1886), but the accounts of which were not submitted and payments made till May of this year. Rs 2,085-8-6 were spent on the marriage, and Rs. 985-11-6 on the obsequies.

As the old family house at Imlai was in a dilapidated condition unbefitting the position of the family, a new house is being built at a cost of Rs. 4,834, which has been sanctioned by the Commissioner. An old tank with flights of steps on all sides which was lying in a dilapidated and ruinous state has been thoroughly repaired with an outlet and inlet for taking away excess water, and for bringing in rain-water. The cost of this work amounts to Rs. 920 of which Rs. 100 remains to be paid. One word in connection with the large amount of balance lying uninvested at the close of the year. Sanction has been applied for to the investment of Rs. 24,000 in a loan to the estate of Debidass Saraogi.

(*a*) **Budhagarh.**—(*Income Rs.* 26,742, *Liabilities. Rs.* 85,180). This estate first came under the management of the Deputy Commissioner in 1875 in virtue of an agreement by its proprietor on account of its being heavily indebted, It has now been brought under the operation of the Court of Wards Act (No. XVII. of 1885) with the sanction of the Chief Commissioner as conveyed in Junior Secretary's letter No. 987-S., dated 8th October 1887, on the formal application of its proprietor Behwar Nirpat Singh for declaration of disqualification to manage his own estate. It is satisfactory to note that the proprietor understands his interest and looks after his villages himself with the assistance of the Court of Wards establishment, and has not incurred any fresh debt.

As regards outstandings on account of arrears of rentit will be seen that about Rs. 20,000 out of the current demand, and about Rs. 6,000 out of past arrears were collected during the period under report. It was not possible to collect more as the tenants suffered so severely on account of the bad season that many of them had scarcely enough food grain to live on. 15 suits were filed for arrears of rent, and decrees were obtained in all cases. An amount of Rs. 1,930-10-11 was written off owing to the poverty, or absconding, or death of the parties from whom sums were due. This was done after Behwar Nirpat Singh, the proprietor, had satisfied himself that the amount was irrecoverable and therefore fit to be written off.

(*a*) **Bujarangarh.**—(*Income Rs.* 5,696, *Liabilities Rs.* 4,533). The proprietors of this estate are the two widows of Thakur Kirat Singh who died in 1881, and on whose application the estate was taken under Government management in 1876. The estate is still indebted to the extent of Rs. 4,532-11-0 on account of old debt for which the estate was taken under Government management. The widows since the death of their husband and mother-in-law (Musst. Bataso) have incurred fresh debts to the extent of nearly Rs. 4,300. They have also recently applied along with Birsing Deo of the Kuarpur estate to have themselves declared disqualified under the Court of Wards Act to manage their estate, and to have the fresh debts admitted by the Court of Wards.

(*a*) **Kuarpur.**—(*Income Rs.* 2,410, *Liabilities Rs.* 9,465). The proprietor of this estate Birsing Deo is a Lodhi by caste. He owns one-third of another estate known as the Bajrangarh estate which also is under the Court of Wards on account of indebtedness. As the proprietor has yet to pay Rs. 9,465 out of his old debts (as will appear from Statement IX.) and has incurred fresh debts to the amount of Rs. 5,025, he has recently applied to be declared disqualified under the Court of Wards Act to manage his own estate, and to have his fresh debts admitted by the Court of Wards. The latter were incurred he says for the marriage of his daughters. Nothing more need be said in this respect as it will form a subject for next year's report.

(*a*) **Lamkana.**—(*Income Rs.* 6,263, *Liabilities Rs.* 17,375.) The proprietors of this estate are two sons, one grandson and one nephew of Sirdar Singh, choudri, on whose application the estate was taken under Government management in 1876 on account of ancestral debts. Nand Kishore, the nephew of the late Sardar Singh, choudri, desires to have his 8 annas share of the estate partitioned as the other proprietors, the sons and grandson of Sardar Singh, have incurred fresh debts to the extent of Rs. 10,000, in incurring which he had no part. The old unpaid debts come to Rs. 17,500. The proprietors have agreed to sell the villages of Nayagon and Bachya and to let the sale proceeds be applied in payment of the old debts. This seems the best course to adopt in order to clear away difficulties. Offers for their purchase were invited in this and adjoining districts, but none have yet been received. If any are received and are adequate, sanction to the sale of the villages will be applied for.

The arrears in this estate are large, but they are within time and recoverable. Rs. 756-3-4 were written off as irrecoverable. As the estate is situated in the Sehora tahsil which suffered

severely from frost, hail and blight, the efforts made to realize rents were not very successful. Some suits for arrears are pending.

As nothing could be collected beyond the amount required for payment of Government demand and cesses, and for current expenditure, nothing was paid in liquidation of debts, not even interest for the year.

The question of bringing the estate under the operation of the Court of Wards Act by fresh application on the part of the proprietors to be declared incapable was recently considered. If the villages above referred to could be sold and partitioned effected as desired by Nand Kishore, his share could be released from management, and only the rest of the estate brought under the Act. Partition would be a good thing as Nand Kishore does not agree with the other proprietors, and this creates difficulties.

(*c*) Konda Mardangarh. (*Income Rs.* 5,132, *Liabilities Rs.* 4,917). This estate was taken under Government management in 1877 on the application of the chief proprietor, Rao Gangadhar, a Gond, for indebtedness, and at first the villages in it were leased out for a period of 10 years on an annual payment of Rs. 8,025 to various lessees, some of whom were the proprietors themselves. The leases expired in June last, and since then the villages have been directly managed by the Court of Wards. A Moharir was appointed for this estate and Ponsara in November last, in the revised establishment, in anticipation of the expiry of the leases. It is expected that under direct management, the income of the estate will increase by about Rs. 1,500. As Rao Gangadhar died in 1880 Rao Gaithar Singh his eldest son has become the chief proprietor. He has recently applied to have himself declared disqualified under the provisions of the Central Provinces Court of Wards Act, but it is necessary that all the proprietors should join in the application, and they have been summoned to appear that inquiry may be made.

This estate is hilly and situated in the Sihora Tahsil. Along with other estates in that tahsil it suffered severely from frost, hail and blight. The amount of arrears is large, but t is hoped that the greater part will be recovered within the course of a few months Rs. 416-8-0 was available to pay off the yearly amount of interest on the debt. One of the chief creditors is dead and as his son who lives in one of the Central India States has not yet obtained a certificate of heirship the amount of Rs. 376-8-0 due to him is lying in the Treasury undisbursed The amount of debt remaining unpaid is now less than Rs. 5,000 and will probably be paid off in the course of a year or two.

(*a*) Bhairavghat.—(*Income* Rs. 22,871, *Liabilities nil*). This estate is a large one consisting of 38 villages spreading over the Jabalpur, Narsinghpur and Damoh districts in the Central Provinces and in Banda in North-West-Provinces. It came under the management of the Deputy Commissioner in 1879, on the death of its proprietor Thakur Pratab Singh, as his heirs and sons were all minors. Thakur Purander Singh has attained his majority recently and proposals have been submitted for relinquishing the estate.

For years past the amount of arrears in this estate has been very large. In December last Mr. McMinn, then Deputy Commissioner, in the course of his tour through the villages of the estate, went through the list of arrears and examined the parties concerned and ordered Rs. 3,500 to be written off. Since then Rs. 6,800 have been written off, as all these items were irrecoverable owing to poverty, death or absconding of parties or being barred by time. After deducting the Rs. 10,340 so written off the outstandings came to Rs. 33,287-2-8 ; most of this amount is within time and recoverable. 3 suits for arrears of rent were filed and decrees obtained. It should be added that before writing off so large an amount of arrears, Thakur Purander Singh was consulted in each case as he is well acquainted with the circumstances of all the debtors, having assisted the Court of Wards for the last two years in the management of his estate. He pronounced all the items to be irrecoverable and expressed a wish that they should be written off.

(*a*) Kethola.—(*Income* Rs. 11,503, *Liabilities nil*). This estate was first taken under management in 1881, owing to the minority of the owner, and has subsequently been brought under the operation of the Court of Wards Act (No. XVII. of 1885) under Chief Commissioner's sanction conveyed in Junior Secretary's letter No. 550S., dated 24th July 1886.

The estate is solvent. The proprietor, Niranjan Prasad, is now 15 years of age and attends the Rajkumar School at Jubbulpore. He has greatly improved in health and has progressed moderately in his studies. He was married in April last. The marriage expenses came to Rs. 4,650, of which Rs. 4,000 were granted for the purpose by the Commissioner and the rest was spent by the mother and grandmother from their personal property.

It is to be regretted that the amount of arrears outstanding has increased this year by about Rs 3,500 over and above the amount of arrears last year In this estate as in the case of all other estates in the Sehora tahsil the inefficiency of rent collections is mainly attributable to hail and frost, and the consequent failure of crops in the past season.

The two previous seasons had also been unfavourable. Moreover rents were in many cases raised considerably just before the estate came under management and three consecutive bad seasons have made it difficult for tenants to pay the enhanced rents. A few abatements of rent were granted a few months ago.

Strenuous efforts were made to collect as much as possible and ten suits for arrears of rent were filed, all being successful. Rs. 560 were written off as being irrecoverable on account of poverty, absconding or death of the parties who had to pay.

(*a*) Ponda.—(Income Rs. 15,190, Liabilities 31,546). This estate (Sehora tahsil) was taken under management in 1882 and was subsequently brought under the operations of the Court of Wards Act under sanction conveyed in Junior Secretary's letter No. 550 S. dated 24th July 1886.

The proprietor Bishen Dutt Sukul is a smart young Brahmin boy of about twelve years of age. He attends the Rajkumar School and is intelligent and diligent in his studies. It will be necessary that his *munj* ceremony should be performed before long. It was proposed to have the ceremony performed in April last and Rs 1,000 were sanctioned for the purpose. But as the estate had no funds wherewith to meet the expenditure the ceremony was postponed for a time.

In regard to arrears of rent, the same remarks hold good as in the case of the Khitola estate. In this estate too some reductions of rents were recently granted in selected cases. There were nine suits filed for arrears of rent, and all were successful. An amount of Rs. 1,436-6-9 was written off as being irrecoverable. Though the estate is still indebted to the extent of Rs. 31,546 it was not found possible to pay any of the interest even of the debts this year.

DISTRICT MANDLA.

(*a*) Madhopur.—(*Income Rs.* 5,874, *Liabilities Rs.* 10,288). The villages are still under Thekadars (lessees). The present leases will expire in June next and the villages will be taken under direct management and will be looked after by the establishment recently sanctioned. Col. T. H. B. Brooke, Deputy Commr.

(*a*) Singharpur.—(*Income Rs.* 2,519, *Liabilities nil*). The health of the minors continues to be satisfactory. The elder, Dyaram Tewari, aged about eighteen years, has commenced cultivation in one of his villages and the younger, Gya Pershad Tewari, aged about nine years, is studying in the English School here and is very regular in his attendance.

(*a*) Ghaga.—*(Income Rs. 752, Liabilities Rs. 519).* There are two proprietors with equal shares. The elder is aged about sixteen years and the younger about ten years.

The estate had a debt of Rs. 5,268-12-6, of which Rs. 4,749-10-10 have been cleared off, leaving a small balance of Rs. 519-1-8. The estate had a balance of Rs. 147-12-9 to its credit at the end of the year.

All the villages attached to the estate have been kept under direct management, but nothing could be done towards their improvement for want of funds.

DISTRICT SEONI.

Mr. L. Gordon, Offg. Deputy Commr.

(*a*) Dhuma.—*(Income Rs. 6,083, Liabilities Rs 4,467).* The receipts for the period under report including balances of previous years have been Rs. 11,766-14-10 against Rs. 9,587-5-6 for the past year. The striking increase of Rs. 2,179-9-4 is due to realization of arrears of past years and sale proceeds of grain recoverd from Thekadars who were indebted to the estate. The old manager has been dismissed. The present manager is endeavouring to recover the outstandings. The large cash balance to the credit of the estate will be devoted to paying off at once the debt of Rs. 4,466-9-3 still due by the estate. The Deputy Commissioner is communicating with Seth Gokuldass Rai Bahadur of Jubbulpore on the subject.

(*a*) Lakhnadon.—(*Income Rs. 4,647, Liabilities Rs. 17,922*). During the year only Rs. 1,200 were paid to Seth Gokuldass on account of annual fixed instalment of Rs 2,577, and this has been done with his consent. Rs. 1,000 have been reserved for the marriages of the minors Kalandar Singh and Sabansi Bai which are to come off this cold season.

Of the three minor proprietors Kalandar Singh and Churaban Singh live in Seoni and are being educated, while Subansi Bai lives under the guardianship of Thakur Kamod Singh of Lakhnadon.

(*a*) Myna Piperia. (*Income Rs. 1,796, Liabilities Rs. 8,299*). The proprietor Wazier Ally Khan gets his maintenance by cultivating the *sir* land of mauza Sonia given to him when the management of the estate was assumed.

DISTRICT NARSINGHPUR.

Colonel Bloomfield, Deputy Commissioner.

(*a*) Imjhira. (*Income Rs. 34,997—Liabilities Rs. 918*). The rent collections this year were as good as could be expected. A sum of Rs. 1,691-8-8 had to be written off under the circumstances noted in the irrecoverable balance statement appended. The balance is considered clear and the amount now outstanding will, with perhaps a few exceptions, soon be collected. The arrears are rather large in Imjhira and Karabia. In Imjhira there are small arrears due from several persons, but these will, it is believed, be collected with the first kist for Sambat 1944. The lease of Karabia has been given to the widowed step-sister of the minor. As the year was not favourable many tenants did not pay their rent to her, and therefore, it was not considered advisable to press her much for the payment.

The proprietor Raja Bhan Pertap is still in the Jabalpur Rajkumar School. This year he will appear for the High School scholarship examination. It seems that he is making steady progress. Mr. Young, the Superintendent of the School, asked and was given permission to take this youth to visit Calcutta during the last Christmas holidays. The boy was anxious to go. A sum of Rs. 250 was allowed for the trip which proved very successful. After his return from Calcutta, Bhan Pertap wrote a short account of his travels in Hindi. It was well written and showed intelligence and observation and did credit to the lad. The boy being now fourteen years old, all his relatives are desirous of getting him married. It is a pity to marry him so soon, but this is a matter in which the Court of Wards must to a great extent allow caste prejudices and customs to have their way. The malguzar of Behear is moving in the matter to get his daughter married to the Ward.

As money was available, sanction was obtained to Rs. 10,000 being tendered for the last Government four per cent loan. The rate of the tender was 97·14 per 100 and it was taken in full. Since then this loan has been quoted at nearly Rs. 99-0-0, so that the investment appears to have been good. Some money has been saved both in price and in commission by tendering for part of the loan instead of buying in the ordinary market.

No new improvement was undertaken during the year. The money spent was on works which were in progress last year. The minor's house at Narsinghpur is complete with the exception of a portion of the surrounding enclosure wall. The house is a good one, and has been approved both by Mr. Fitzpatrick and Mr. Mackenzie, Chief Commissioners.

(*Remarks by Commissioner*:—The arrears due to this estate were reported during the year by the Deputy Commissioner, and some were treated as recoverable and others as irrecoverable. Notwithstanding these arrears I consider that the estate has, on the whole, been well managed. The minor also is being brought up well.)

(*b*) Chhindwara. (*Income* Rs. 586, *Liabilities nil*). The estate consists of Rs. 0-1-9 share in the village of Gotegaon. The proprietor, Bansidhar, a youth of 18 years, lives at Chhindwara in his family house. He has there a small grocer's shop but has not yet shown any great aptitude for business. During the year his health was excellent. He did not pick up any new quarrels and therefore was allowed to remain at Chhindwara.

The Commissioner, Narbada Division, had suggested that the management of such a petty estate should not be continued, and the Deputy Commissioner was asked to make it over, if possible, to some relative of the minor. But no suitable relative could be found. The Ward also objected to any such arrangement and the estate therefore could not be given up.

Attempts were made to recover arrears of rent from Bali Bania of Chhindwara, but they were not successful. The tenant is insolvent and has also surrendered his holding. A decree has been obtained for arrears of Sambat 1912 and execution will be taken and every effort made to recover as much as possible.

(*Remarks by Commissioner*.—It is a pity that this estate is to be continued under management. There is a large credit balance which cannot be spent in improvements and the proprietor is a shopkeeper who does not deserve any consideration from Government.)

(*a*) Narsinghpur.—(*Income Rs.* 31,597, *Liabilities Rs.* 82,832).—The Government Ward, Rao Sheobaran Singh, is nine years of age. During the year he seems to have improved considerably in health and now looks almost robust. He attends the Vernacular branch of the Zilla School but has not progressed rapidly owing to his hitherto delicate state of health. His sister, who was married in 1885, has not yet gone to her father-in-law's house. She attends the girls' school and is in the 3rd Hindi class.

The current demand with a trifling balance has been collected, but as the payments in some cases were credited to past arrears the current arrears seem large. The total collections however exceed the year's demand. Rs 3,247-6-3 were recommended to be written off for the reasons noted in the irrecoverable balance statement appended. The Commissioner did not sanction the remission of Rs. 591-5-3 in the case of Mulla Ahir, but with this exception the amount has been written off under his instructions. While enquiring into the balances enquiries into the solvency of each tenant were also made and a complete statement (copy appended) of doubtful arrears was also prepared and submitted to the Commissioner of the Division in which the causes of delay in collecting the arrears were fully explained. From some persons instalment bonds had been accepted the amounts of which used to be shown as arrears on the Rent Roll but they have been removed from the Register and shown as debts due to the estate. This procedure was approved of by the Commissioner of the Division in his letter No. 5274, dated 12th September 1887.

The small amount shown against estate improvement was spent on the village boundary marks. As the settlement operations are in progress something more will be required for this purpose. The estate being heavily involved it is impossible to undertake improvement.

(*Remarks by Commissioner*:—The Deputy Commissioner has paid great attention to the estate and his report shows the difficulty that he has experienced in collecting the rent. I reported last year that during seven years of previous management only about Rs. 9,000 had been paid off. This year Rs. 6,297-9-1 have been paid off, but the estate is still considerably embarrassed, and great care will be needed to clear off the liabilities.)

(*a*) Bohani.—(*Income Rs.* 7,917, *Liabilities Rs.* 488). The estate consists of two whole villages. Raja Bhayia, the Government Ward, is seventeen years of age. He still lives with Thakur Dhiraj Singh at Singhpur and attends the Zilla School here. He is very regular in his attendance and worked well during the year : his health was good.

The rent collections during the year were satisfactory and it is expected that unrealized balances will soon be recovered.

It was intended to erect a "*pakka*" wall around the minor's house and the materials for the wall are ready, but as it has been ascertained that the house itself is in a bad condition and as it is proposed to rebuild it, the work of the wall has been stopped, and hence the advance of Rs. 201-4-9 remained unadjusted. During the next year steps will be taken to put the house in proper order.

(*Remarks by Commissioner.*—The balance of Rs 487-12-0 due at the close of the year has since been paid off, and the estate has a clear credit balance of Rs. 914-14-11. There are arrears to be recovered, but those that are irrecoverable have been struck off and steps have been taken in respect of recoverable arrears.

The arrears seem to have accumulated from the mismanagement of the collector Kakar Chetram who has been influenced by a Court of Wards' Moharir.)

(*a*) Bichia—(*Income Rs*, 3,423, *Liabilities Nil.*) This estate consists of two whole villages and half of a third. The proprietress Musst. Manna, aged eighteen, has been a widow for nine years. She still continues to reside with her father at Gadaria-Khera. Her health is excellent. Efforts have been made to cause her to take interest in the management of her estate but without success. Her father tries to keep her in the dark as much as possible wishing to turn everything to his own advantage. As she prefers to live with her father the maintenance allowance is paid to him. He himself is a malguzar of a portion of a small village, but his affairs are, it is feared, in a far from flourishing condition and he depends to a great extent on this allowance of his daughter. Her father urges that she has enemies at her village and would not be safe there. The estate will probably have to be managed for her whole life.

The rent collections during the year were good. A number of suits, however, had to be filed and executions taken out. Altogether suits for Rs. 429-14-6 were filed, and Rs. 392-6-0 were recovered. One claim for Rs. 12-8-0 was dismissed and the amount had to be written off. Rs. 428-12-6 had to be written off as irrecoverbale as shown in the irrecoverable balance statement appended.

Rs. 868-12-9 have been temporarily lent to the Chirchetta estate. The Commissioner of the Division has allowed a loan of Rs. 3,500 to be taken for this estate from Seth Tikaram of Narsinghpur who has agreed to advance the amount at 6 per cent per annum. As soon as the transaction is complete the temporary loan will be refunded.

No improvements were undertaken during the year. It is however in contemplation to embank some of the fields.

(*a*) Bahrora—(*Income Rs.* 1,297, *Liabilities Rs.* 8,260). During the year under report, nearly the full demand on account of land revenue has been collected. Under the Commissioner's sanction Rs. 576-5-3 have been written off as irrecoverable. There was not the slightest chance of recovering it. Precautions were taken to let lands to good cultivators only, and the result has proved the success of the measure. In a few instances rents were reduced. Notwithstanding that the rent collections during the year were good little was

done towards the repayment of debt. All that could be spared from the income was paid to the creditor, but as last year's collections were very bad the annual interest due remained unpaid, and this had to be made good before anything towards the principal could be paid.

(*a*) Deonagar—(*Income Rs.* 3,453, *Liabilities Rs.* 15,530).—The estate consists of two whole villages. Raghubir Prasad, a youth of fifteen years, is the proprietor. He lives here and studies in the Zilla School and progresses satisfactorily. He is now preparing for the High School scholarship examination. His health has been good throughout the year.

Every possible attempt was made to realize the outstanding balances as well as the current demand, but the latter only was collected. The harvest was not very good, and therefore tenants could not pay up the arrears.

(*Remarks by Commissioner*:—The liabilities of this estate are still heavy and very little was paid off during the year, but the Deputy Commissioner's report shows that he did his best in the matter of rent collections.)

(*a*). Chawarpatha,—(*Income Rs.* 17,338, *Liabilities* Rs. 26,655).—The proprietors—two promising lads—attend the village school at Chawarpatha, and are regular in attendance and seem to be making good progress. Musst. Radha Sethani, the mother of the minors, is a good manager and takes good care of them. She wishes them to be well educated but objects to their coming to District Head-quarters. She wishes that a special well educated tutor be employed at Chawarpatha to teach them both Hindi and English. Nothing has yet been done in this direction as the boys have not yet done all they can in the village school.

The rent collections are generally good except in Chirria. This year every effort was made to get in a fair proportion of the Chirria rents, but still the full demand could not be realized. No less than thirty-one suits for arrears of rent amounting to Rs. 2,165-11-11 had to be filed against Chirria tenants only. The full amount has been decreed, but by taking out executions only a small sum of Rs. 222-3-1 could be realized. The tenants chiefly north country Brahmins are a very bad lot. They are poor, lazy and quarrelsome, and do no work themselves but depend on hired labour. They are in debt not only to the Court of Wards but also to many money lenders.

(*Remarks by Commissioner*:—The village of Chirra in this estate gave much trouble, and thirty-one suits for arrears of rent had to be filed against the tenants. But there were arrears also in other villages, some of which are also irrecoverable).

(*a*). Chirchetta.—(*Income Rs.* 868. *Liabilities Rs.* 3,997.).—This estate was taken under management at the close of last year so that nothing was done during that year. It consists of halves of two villages and an ubari land in another. The proprietors are Ramlal and Jawahirlal.

Ramlal is not a minor, Jawahirlal is a minor of thirteen years. Both are in good health and live at Shrinagar in a family house of their own. Jawahirlal has completed his studies at a village school, but as the funds of the estate are very limited it is not possible to bring him to Head-quarters to the Zila School. An allowance of Rs. 150 is made for their maintenance.

The following sums have been borrowed :—

	Rs.	a.	p.
From Seth Tikaram	1,600	0	0
From Bichia estate ...	869	12	9
Total ...	2,469	12	9

This sum together with Rs. 400 have been paid to the other creditors as shown in Statement IX.

The Commissioner of the Division has sanctioned a loan of Rs. 3,500, to be taken for this estate to consolidate the liabilities, and Seth Tikaram has agreed to lend it at 6 per cent per annum, and has already paid in Rs. 1,600; the remainder will be taken from him now, and a mortgage deed executed. As soon as this is done the temporary loan from the Bichia estate will be repaid.

(*a*) Umaria.—(*Income* Rs. 12,389, *Liabilities* Rs. 14,471). Some of the former Mukhtiars of Musst. Piari Bai who were opposed to the estate being taken up, continued for a short time to give trouble to the Court of Wards' officials. They stirred up and gave bad advice to the proprietress and to the tenants, but now they have ceased to trouble, and matters are going on smoothly. These people interfered somewhat in the rent collections or the realizations would have been better. The Moharir in charge of the estate also proved to be a lazy man, and the Manager and Assistant Manager had to assist him for several days. The Moharir who among other things was careless and quarrelsome, has since been dismissed.

There is no doubt that the lands of this estate are not fertile, and it is only in good years that the outturn is satisfactory. The cultivators are poor, and unless the harvest is good they cannot pay the full amount of their rent. The year under report not being very favourable, both crops yielding less than 50 per cent of a full outturn, made it impossible to collect the full current demand. During the year a full enquiry was made into the state of the balances, and a statement which accompanies this report was submitted to the Commissioner, and his orders obtained to write off Rs. 2,035-3-0. There are still some doubtful balances, and although decrees have been obtained their recovery is doubtful. A statement of such balances also is appended.

During the year Rs. 1,965-12-0 were paid to Rai Bahadur Seth Gokaldass Ballabhdass, for his former loan, and Rs. 512-12-3 were paid to Seth Ghasiram Singai of Narsinghpur whose claim was settled at par.

The Chief Commissioner has allowed the raising of a further loan of Rs. 10,000 from Rai Bahadur Seth Gokaldass' firm to pay off all the other creditors and negotiations for settling its terms are in progress. As soon as these are complete the loan will be taken and the rest of the creditors paid off.

(*Remarks by Commissioner*:—The rent arrears were heavy, and I allowed the Deputy Commissioner to strike off Rs. 2,035-3-0 as irrecoverable. The loan of Rs. 10,000, which the Deputy Commissioner has been empowered to raise, will enable him to adjust the debts satisfactorily.)

DISTRICT HOSHANGABAD.

COLONEL C. H. PLOWDEN, Deputy Commissioner.

(*a*) Sukerwas.—(*Income* Rs. 5,717, *Liabilities nil*). It was reported last year that the minor had attained his majority, and that the estate should be handed over, but on sending for the horoscope of the minor it was found that she had not completed her twenty-first year; no steps were therefore taken to relinquish the estate. The Ward attained majority on Bhadon B. 13 Sambat 1944, corresponding with 16th August 1887. With reference to the remarks made by the Commissioner in last year's printed report, as regards the impropriety of relinquishing the estate to her husband who may not perhaps be careful of his wife's interest, enquiries were made through the Tahsildar of Harda, as to the relations existing between the Ward and her husband. He reported that they are now on good terms, but the Extra-Assistant Commissioner, Harda, has been asked to ascertain if possible from the Ward herself, what her wishes are, on the hearing of which a report will be submitted.

(*Remarks by Commissioner*:—The management of this estate by the Court of Wards might, I think, be now relinquished. The report promised by the Deputy Commissioner regarding the propriety of taking this step will be awaited.)

(c) Umerdha.—(*Income Rs.* 5,554, *Liabilities Rs.* 642).—This year a sum of Rs. 2,039-14-6 was paid towards the principal as against Rs. 2,947-9-6 in the previous year, leaving a balance of Rs. 641-9-0 exclusive of interest. A large sum might have been paid, and the liabilities cleared off if outstandings had been more fully collected, but here, as in the case of other estates, despite the orders passed on the subject, Rs. 715-9-0 were allowed to remain outstanding. The fact is discreditable to the Superintendent and to the Moharir in charge. The demand on account of rent including arrears of previous years was Rs. 6,144-15-0. Of this a sum of Rs. 5,429-6-0 was realized during the year, leaving the balance already noted. Of this a sum of Rs. 444 was realized on 15th October 1887.

This estate will be free from encumbrances in the course of the present year, but it will be better to retain the management till the close of the year so that the proprietress might make a fair start with some little money in hand. If this is not secured the proprietress would probably be in difficulties again immediately.

(*Remarks by Commissioner*:— The management of this estate might also, I think, be relinquished during the current year).

(c) Pipaldhana—(*Income Rs.* 1,726, *Liabilities, Rs.* 3,000.)—The year closed with a balance of Rs. 3,065-1-6 to the credit of the estate, which was available for payment of the remaining liabilities in full, but payment has not been made, owing to disputes existing between the heirs of the persons from whom the debt was originally contracted. They have been served with a notice to the effect that the money is at at their disposal collectively or individually whenever they can come to an agreement, or produce an order of the Court, and that further interest will not be paid.

Enquiries were made in the course of this year in order to ascertain whether or not the owners of the estate had contracted fresh debts. It was found that Bhaboot Singh has incurred further liabilities to the extent of Rs. 1,315 and 23 manis, 20 kuros of grain, and that his brother Balwant Singh is indebted to Fursat Patel to the extent of Rs. 4,586 and 43 manis, 20 kuros of grain. It is palpably useless making any efforts to save persons who merely resort to our intervention to relieve themselves of the present pressure put on them by their creditors merely to incur fresh debts elsewhere. The case will be reported at once with a view to the relinquishment of the estate to the proprietors.

(*Remarks by Commissioner*:—The management of the estate should be relinquished.—A separate report on this point has been already submitted).

(c) Babai.—(*Income Rs.* 23,463, *Liabilities Rs.* 56,138). During the present year Rs. 4,997-5-6 in addition to interest Rs. 5,602-10-6, have been paid as against Rs. 4,188-11-0 principal and Rs. 7,731-8-0 interest in the previous year. The debts have been consolidated and the amount borrowed for the purpose from Rai Bahadur Seth Gokuldass is being liquidated by fixed instalments of Rs. 8,500 a year including interest or as much as the estate can pay.

The demand on account of land rent with the arrears of previous years (Rs. 6,074-4-11) was Rs. 28,262-9-7 as against Rs. 27,460-11-4 in the previous year. Of the total demand a sum of Rs. 21,965-8-0 was realized, leaving an outstanding of Rs. 6,297-1-7. Of this sum Rs. 3,960-9-4 belong to the year under report and Rs. 715-8-9 have been written off as irrecoverable, the tenants liable for the same having been ejected by order of the Court from their holdings and the suits in execution shown as fully executed.

The rents in arrears for the present year are said to be due to the partial failure of the crops more especially in Mauzah Goredalwara. There is no reason to suppose the rents are excessive, or that any real hardship exists as the rents have been paid since 1934 Sambat, the real fault no doubt exists in the lax procedure of the Court of Wards' officials. Steps have now been taken to correct this.

(c) Malhanwara—(*Income Rs.* 936, *Liabilities* 2,971.) The year closed with a balance of Rs. 620-3-0 as against Rs. 351-12-0 in the previous year. The increased arrear in the rental demand is said to be due to the outturn of the crops having being poor, but seeing that the sum of Rs. 459-9-0 is due by two tenants this reason does not appear to be admissible, the real fault no doubt rests with gross carelessness and inattention on the part of Gopal Rao the Moharir in charge and want of proper supervision on the part of the Superintendent who never brought the matter to notice.

(c) Raheta (*Income Rs.* 3,663, *Liabilities Rs.* 7,862.) Since the management of this estate was assumed in 1880, Rs. 6137-12-9 have been paid off out of the original debt of Rs. 14,000. This year Rs. 432-0-6 only were paid as against Rs. 1,230-0-6 in the previous year. The year closed with a balance of Rs. 2,136-9-5 to the credit of the estate against Rs. 352-1-2 in the previous year. There is no satisfactory explanation forthcoming from the Superintendent as to why this money was held in deposit and was not paid in liquidation of the liabilities of the estate. Orders have now issued to the effect that full payment be made at once to the extent of the assets in hand, after reserving enough for current expenditure. The additional charge for interest will be paid by the Superintendent himself for neglect of duty in not taking action at the time prescribed for the payment of the instalment.

(c) Timarni.—(*Income Rs.* 38,480, *Liabilities Rs.* 76,971). The management of this estate was assumed on 9th May 1885, owing to the owner's indebtedness, the total liabilities being Rs. 1,13,738-10-11. In the present year a sum of Rs. 44,000 was borrowed from Rai Bahadur Seth Gokaldas of Jabalpur with a view to consolidating the debts. The total liabilities therefore increased to Rs. 1,57,738-10-11. Last year debts were liquidated to the extent of Rs. 9,088-8-0 and this year a sum of Rs. 71,678-15-9 in addition to Rs. 6,101-9-10 on account of interest has been paid off, leaving a balance of Rs. 76,971-3-2 due to three creditors including Seth Gokaldas Rai Bahadur. It has been arranged to pay off this amount by instalments of Rs. 20,000 a year inclusive of interest. The demand on account of land rent with the arrears of previous years (Rs. 626-11-8 cash and 2 manis 24 kurus in kind) was Rs 27,827-15-2½ cash and 153 manis 28 kurus grain of which Rs. 26,915-15-9 cash and 148 manis 44 kurus grain have been realized, leaving a balance of Rs. 916-15-5½ cash and 4 manis 32 kurus grain. Strict orders have been issued for the prompt realization of this outstanding which exceeds that of last year by Rs. 290-3-9.

(*Remarks by Commissioner*:—This estate is being properly managed and there is every prospect of the liabilities being cleared off within a reasonable time.)

(c) Nipania.—(*Income* Rs. 29,784, *Liabilities* Rs. 1,18,255). When management was assumed in 1885 the liabilities amounted to Rs. 1,78,197-7-11 of which a sum of Rs. 31,293-10-0 was paid last year, leaving a balance of Rs. 1,46,903-13-11. This year additional claims to the extent of Rs. 2,432-3-2 were registered against the estate. The total liabilities therefore amounted to Rs. 1,49,336-1-1, of which Rs. 31,080-10-1 have been paid towards principal and Rs. 13,112-11-0 towards interest, total Rs. 44,193-5-2, leaving a balance of Rs. 1,18,255-7-0 for which bonds have been executed in favour of certain creditors. The amount of interest appears somewhat disproportionate, but is explained by the fact that no interest was paid last year. This estate being that of a person of the money-lending class has given much trouble and now even it is not possible to say that all claims have been registered. In the same way it appears doubtful whether the whole of the debts due to this estate have been yet fully ascertained. Special investigations on this head have been ordered to be made. The number of suits instituted in behalf of the estate during the year was twenty-two and this with nine cases pending from last year were thirty-one cases for disposal.

The total value litigated in these suits was Rs. 18,295-8-7, of which Rs. 12,600-15-3 have been decreed in favor of the estate and Rs. 3,197-2-3 dismissed. Rs. 183-6-1 are still pending before the Courts in two cases.

(*Remarks by Commissioner*:—The affairs of this estate are still unsettled ; but the Deputy Commissioner's memo will show that there has been much litigation, and it has not been possible for him to effect a final settlement. The Deputy Commissioner has done all in his power to get the affairs of the estate into proper order.)

(*a*.) Futtehpur.—(*Income Rs.* 55,349, *Liabilities Nil.*)—The outstandings on account of rents at the close of the year under report amount to Rs. 9,497-12-2 or 20·2 per cent as against Rs. 8,052-6-6 or 17·5 per cent in the previous year. Of this sum Rs. 6,112-11-2 are due from villages situated in the Narsinghpur district, and Rs. 3,385-1-0 in this district. Of the arrears amounting to Rs. 9,497-12-2, Rs. 345-8-9 are said to be doubtful of realization and Rs. 74-8-6 have become barred by limitation. Rs. 964-15-9 have since the close of the year been realized, Rs. 505-4-6 are in course of realization by instalments, and Rs. 782-1-0 from the profits of certain malik makbuza holdings under the direct management of the Collector. There are decrees in respect of Rs. 3,303-1-6 which are being executed. The remainder Rs. 3,596-13-5 appear to be in arrears for no good or sufficient reason, and will, it is hoped, now be realised without unnecessary delay. The year under report closed with a cash balance of Rs. 1,16,428-13-3 to the credit of the estate against Rs. 1,02,783-6-6 in the previous year. Rs. 45,300 have been invested in Government securities during the year under report, and the total amount so invested now amounts to Rs. 95,300, leaving a balance of Rs. 21,128-13-3. During the present marching season the real requirements of the estate will be ascertained, and steps will be taken to have such works as may appear to be of utility reported for sanction as suggested in letter No. 3909, dated 2nd July 1887.

(*Remarks by Commissioner.*—This estate has not, I think, received proper attention. There is a large balance to the credit of the estate, and I remarked last year that a portion of it at any rate might be devoted to improvements, but scarcely anything in this direction has been done. Money might be spent in improving the family house and the surroundings of the family generally. A petition about this has been lately presented to the Chief Commissioner, and a separate report will be submitted. It is also not creditable to the management that there are such large rent arrears, but it is only fair to the Deputy Commissioner to observe that the greater portion of the arrears has accumulated in the Narsinghpur District.)

DISTRICT NIMAR.

(*b*) Mandhatta.—(*Income Rs.* 33,839, *Liabilities Nil.*) The increase in forest receipts is from the sale of teak. The decrease in miscellaneous receipts is ascribed to three causes. Mr. S. Ismay, Deputy Commissioner.

(1). A large nominal increase under Ferries was included in last year's figures (*vide* this office No. 2861 of 19th November 1886.)

(2). Offerings have fallen off owing to the inability of devotees to attend the shrine in Sarawan owing to heavy rain, and

(3) in last year's figures are included Rs. 1,000 the price of an elephant sold.

Amongst so-called improvements it is noted that Rao Dowlut Singh's Chhatri has not made much progress during the year The construction of a baoli at Thapua (half way between Mortakka and Mandhatta) will be a real benefit to pilgrims and other travellers.

DISTRICT BETUL.

(*b*) Durgadin Patel.—(*Income Rs.* 10,006, *Liabilities Nil*). Out of a total rental demand, current and arrears, amounting to Rs. 13,813-1-7 only Rs. 9,085-11-4 made up of Major J. A. Temple, Deputy Commissioner.

rents and sir land profits could be collected during the year under report, leaving a large balance as last year of Rs. 4,727-6-3. This is all recoverable and is being collected.

The cost of estate management has decreased owing to the abolition of the post of Manager, who was paid Rs. 20 monthly. In his stead a man on Rs. 10 per mensem has been appointed to assist Dindayal, the new Manager. As regards personal expenses last year a sum of Rs. 1,000 was expended in the marriage of Musst. Manni Bai. This was of course an extraordinary charge.

The younger son-in-law Manohar Lal is receiving English education in the Betul English school. He lives with Dindayal, and is on amicable terms with him. All the members of the family are living in harmony with each other.

(*a*) Banna Bais.—(*Income Rs.* 600, *Liabilities Rs.* 219). This is the second year of management by the Deputy Commissioner. No report was submitted for the previous year as Colonel Macdougall thought that it had better be deferred till the division of the estate between the wards and other heirs had been accomplished by arbitrators. These had been appointed for that purpose by Mr. Drysdale. After much delay their award was filed on the 12th December. It has however been objected to and no action has been taken until the arbitrators have been consulted.

As the accompanying statements are being submitted for the first time, comparison cannot be drawn with the figures of the preceding year in which none were rendered.

The managing establishment consists of a Manager receiving a salary of Rs. 10 monthly and a Hawaldar on Rs. 4. The duty of the latter consists in a great measure in collecting debts, due.

Musst. Banna Bai, widow of the deceased Ganpat Rao, is in receipt of a monthly allowance of Rs. 25 for maintenance of herself and her sons.

DISTRICT CHHINDWARA.

Colonel W. VERTUE, Deputy Commissioner.

(*b*).—Pagara.—(*Income Rs.* 13,235, *Liabilities Rs.* 339). During the year the income amounted to Rs. 13,378-3-0 and the expenditure to Rs. 21,378-14-6. Of this latter sum, Rs. 11,184-12-5 were spent in purchasing Government Promissory Notes to the value of Rs. 10,000 of the 4½ per cent loan These together with the Government Stock Notes have been forwarded for safe custody to the Comptroller.

The year closed with an uninvested balance of Rs. 18,231-7-11, the whole of which except Rs. 429-13-0 credited into the Treasury on 1st October, is in the Government Treasury.

Of the current rental demand amounting to Rs. 5,007-13-0, Rs. 4,518-6-0 have been realized and Rs. 355-13 0 are yet to be recovered. Of the large unrealized balance of last year Rs. 307-2-0 have this year been realized and Rs. 418-12-0 were remitted on account of the poverty or disappearance of the defaulters. It may be mentioned that a certain number of villages are held by Bharias who as a rule are very poor. In bad seasons they cannot pay their jamas and have to be considerately dealt with.

The house at Pagara has not yet been completed and is not likely to be finished much before October 1888. It was inspected before the rains by a Supervisor of the Public Works Department and the work was reported by him to be of good quality. During the year under report a substantial well was sunk at the village of Pagara and two others begun in the interior of the estate. The village of Pagara was considerably improved and repairs were made to the Pagara-Dhusawani and the Dhusawani-Bankeri roads.

The Dispensary at Pagara continues to do useful work and is well supplied with medicines. It is greatly required as Pagara is a most unhealthy place, but owing to the small size of the village a large attendance at the Dispensary cannot be expected.

The minor Drigpalsha was sent last June to the Rajkumar College at Jabalpur.

(*Remarks by Commissioner.*—This estate has a large cash balance to its credit and also a large sum invested in Government securities. The Deputy Commissioner has spent a good deal during the year in improvements and proposes to spend more which the estate can easily afford)

(*b*).—Jamania.—(*Income Rs* 2,079 *Liabilitiess. Rs.* 4,326). The liabilities at close of last year were Rs. 5,198-5-0. Rs. 872-2-0 have been repaid during the year under report, leaving a balance of Rs. 4,326-3-0. It is hoped that the whole of the debts will be liquidated in five years.

Steps are being taken to secure the recovery of the debts due to the estate.

Owing to the liabilities no money could be spent on improvements. The minor and his brother are learning Hindi and have made some progress during the year under report. In the beginning of each month they are, as a rule, brought to Chhindwara, in order that they may be examined by the Deputy Commissioner.

The annual fair at Jamunia was held in February last and was a success.

(*Remarks by Commissioner.*—There are large rent arrears, but the Deputy Commissioner has not pressed the defaulting tenants on account of their poverty).

Dhuswani.—(*Income Rs.* 457 *Liabilities* Rs. 957). This estate consists of five villages which were given by the Pagara Jagirdhar as a mukasa to the ancestors of the present holder Gopal Sha. On the application of the Mukasdar the management of his state was assumed in May 1886, and a sum of Rs. 1,162-14-3 was paid out of the Pagara estate with the sanction of the Chief Commissioner for the liquidation of debts due by the Mukasdar.

The property is managed by the Manager of the Pagara Estate without any allowance from this estate.

DISTRICT WARDHA.

(*a*) Mandgaon—(*Income* Rs. 20,332, *Liabilities Nil.*)—This estate has Rs. 20,000 invested in Government securities and a balance of Rs. 16,541-6-4. Of this Rs. 5,563-4-0 is in the Post Office Saving's Bank, and Rs. 10498-12-10 in cash in the Treasury. Proposals will now be submitted to purchase Government Promissory Notes to the value of Rs. 16,000. Colonel W. S. Brooke, Deputy Commissioner.

The current year's income was fairly well got in, the balance being Rs. 1,226-3-1, equal to 7 per cent. on the demand. The unrealized amount is chiefly due from the villages of Mandgaon and Numgaon, which are exclusively rabi growing tracts. The failure of the linseed and poor wheat crops accounts for the balance. Tenants were not pressed too hard as they have little attachment to the soil and quickly leave for Berar. The year opened with an arrear demand of Rs. 2,259-3 9, of which Rs. 1,717-14-9 were recovered, leaving a balance of Rs. 541-5-0. Rs. 358-2-6 of this is shown as doubtful, which is really irrecoverable as the tenants have deserted.

The eldest ward Bati Ram Singh has not improved since last year's report. His conduct is very unsatisfactory and he is daily becoming more dissolute. His younger brothers Ramkishen

and Balkishen, aged fourteen and twelve years, attend the Mandgaon village school and are doing fairly well. The Manager of this and other estates under the Court of Wards is weak and inefficient—a change will probably be necessary.

(*Remarks by Commissioner.*—The financial position of this estate is good and a considerable balance has been accumulated. Much of this is invested in Government securities, and it is proposed to invest more. The Deputy Commissioner will however be asked whether some money cannot be spent on improvements. There is no object in accumulating money which will doubtless be spent when the "dissolute" ward reaches his majority.

Fair efficiency is shown in the rent collections.)

(*a*). Selu—(*Income Rs.* 1,369, *Liabilities Nil*).—This estate pays nothing on account of managemet.

The minor Vishweshwar having ceased to attend school the allowance for the maintenance of the family has been reduced to Rs. 15 per mensem, which is ample.

The minor is seventeen years old. His behaviour is very far from satisfactory.

The balance to the credit of the estate amounted to Rs. 1218-0-4 cash and Rs. 1,000 in Promissory Notes.

(*Remarks by Commissioner*—The estate is a small and insignificant one. As it is leased out, there is probably no use of seeing if money can be spent on improvements. The estate has been freed from debt and has a good balance.)

(*a*) Moe.—(*Income Rs.* 6,550, *Liabilities Nil.*) Eight per cent of the rents for the current year remained uncollected. This was due to the failure of the linseed and poor wheat crops at last harvest. Rs. 5,000 of the balance will now be invested in Government paper.

The minor Dhanoba Bagul Mahratta is sixteen years old. He attends the Wardha Zilla school and has passed by the 5th standard in vernacular and 2nd standard in English studies. His conduct is fairly good.

(*a*) Hingni.—(*Income Rs.* 6178, *Liabilities Rs.* 12,040.)—Since the management of this estate was taken up by the Court of Wards on the 18th May 1886, the debts have been reduced from Rs. 14,499-8-7 to Rs. 12,039-8-0. On the 1st October 1887 there was a balance in hand amounting to Rs. 2,451-7-3, of which Rs. 1,592-6-0 have since been paid away in further liquidation of debt. The liabilities at the present date (December 1887) stand at Rs. 10,507-2-0. This estate contributes nothing at present towards the cost of the central establishment, being managed by the Deputy Commissioner through the Tahsildar of Wardha. Excepting a small sum of Rs. 231-9-6 the whole of the Rent demand Rs. 4,717-8-10 was collected.

The minor was seen by the Deputy Commissioner on the 5th of December 1887. He is a child of about a year and a half old and is in charge of his mother, Mussaunt Apurna Bai. He is said to be, and looked, in good health. The family residence is in a very dilapidated condition and large sums of money will have to be spent upon it when the estate is clear of debt.

DISTRICT NAGPUR.

Colonel C. H. Grace, Deputy Commissioner.

(*b*) Khadgaon and Bhatra—(*Income Rs.* 2,203, *Liabilities Nil.*)—This is the only estate which is now under the Deputy Commissioner's management by the order of the Civil Court under the Minor's Act (XL of 1858.) Ranoji Naik is about fifteen years of age. He attends the City school and is preparing himself for the Middle School Examination of 1888. Mr. Rambhaji Rao Mahadik lately examined the ward and reports that he has made very good progress.

He also enjoys good health. His relative Vithoba Piple manages his estate.

(*a*) Chachur.—(*Income Rs.* 25,301, *Liabilities* Rs. 1,05,424).—Ahiloji Ahir Rao has ffered to sell his jewelry and the stock of his grain and to pay the sale proceeds towards the quidation of the debt. The estimated value of the jewelry is Rs. 19,700 and grain Rs. 12,500. Grain is a lucrative source of income ; but under the present circumstances of the case it must be disposed of.

Notwithstanding the great anxiety to pay off debts shown by Ahiloji Ahir Rao he has been ncurring fresh debts some of large amounts. Several decrees were passed against him during he year. A double storied house in the city of Nagpur was mortgaged by him in May 1887, for a small sum of Rs. 500. He did not inform the Manager or the Deputy Commissioner of this. A claim for Rs. 956 was made on a receipt which seems to all appearance to have been antedated in order to admit of the plea that Ahiloji Rao was not amenable under Section 23 clause 1 of the Court of Wards Act.

(*Remarks by Commissioner* :—It may be found necessary to call on Ahiloji Ahir Rao to show cause why Government should retain management of his estate seeing that he violates the conditions on which management was assumed).

(*a*) Bhonsla.—(*Income* Rs. 3,34,673, *Liabilities Nil.*).—Hitherto the receipts from villages in the Bombay Presidency and Berar were omitted from the Statements, under the impression that the report was required regarding villages in the Central Provinces only. The receipts under this head are :—

	Rs.
From Bombay Presidency	11,740
Do. Berar	6,232
	17,972

One village, namely Munglwani, in the Seoni district which was difficult, to manage on account of its distant situation, was sold under the Chief Commissioner's sanction, (*vide* Junior Secretary's No. 625S., dated 28th June 1887). It fetched as much as Rs. 9,000, a sum quite unexpected.

The total rental demand was Rs. 1,91,323 and the collections amounted to Rs. 1,70,773, leaving a recoverable balance of Rs. 16,661 or 8·7 per cent. Special and timely measures were adopted to recover the balances, but owing to the failure of the rice crop in the Bhandara, Chanda and Raipur districts, and also in the south-eastern portion of the Nagpur district, large balances accrued. The balances here amount to Rs. 5,692.

During the year the Manager visited the estate villages in the Bombay Presidency and Berar. Of the Talukas there, one is supervised by a kamdar who communicates direct with the Manager. The villages of Deur (from which the Raja takes his name) and Palsi with a plot in Dhaigaon are under the Mamletdar of Korejaon who however would appear to have left the collections to the Patel of the village, the result being a balance of Rs. 481 on a demand of Rs. 4,609.

There are three villages of the estate in Berar which are managed by a family called Binivalas. They receive a pension of Rs 400 a year in consideration of their superintending the villages. It is found that they collect the rents but are very dilatory in crediting collections. The balance against these villages is Rs. 816 on a demand of Rs. 6,255. The kamdar, a member of the family, was found to have misappropriated a large sum out of the collections and he had to be dismissed. He has recently made a futile attempt to institute a suit against the estate for establishing his right to the kamdarship of the villages. Measures will be adopted during the present year to place the villages in the Bombay Presidency and Berar under effective and reliable management.

There are thirty-five granaries altogether and nearly two-thirds of the stock of grain lie in the Bhandara district. The failure of the rice crop resulted in small receipts and consequent small issues. The Manager has brought to notice the following startling facts. In every one of the thirty-five granaries he found the stock of grain on the decrease during the last five years, the accounts of these were examined by him with the following result:—

Year (Fusly).	Stock of grain in khandies at the end of year.
1292	9,885
1293	8,048
1294	7,229
1295	6,678
1296	6,222

As soon as this state of things was discovered last year, measures were at once taken to endeavour to rectify matters, but unfortunately the rice crop failed in Bhandara where the largest stock lies and the consequence was that at the end of 1296 the granary stock remains much the same as it did last year.

The revised scale of Establishments came into force on 1st October 1886. Of the sanctioned amount of Rs. 22,227, Rs. 18,877 were spent. Rs. 1,465 were spent on account of management of the estate villages in the Bombay Presidency and Berar. The percentage of total expenditure to the receipts was 6 per cent.

During the year it was considered advisable to take a Bungalow in the Civil Station for Raja Raghoji to reside in, preparatory to the appointment of an English tutor. It was arranged that the manager Mr. Rambaji Rao should temporarily reside with the Raja. This arrangement answered fairly well for some months. Raja Raghoji has enjoyed better health than he did formerly, but he is not quite strong yet. Mr. Kneller, the former tutor of the Maharaja of Cooch Behar, has lately been appointed by the Chief Commissioner Tutor to the young Raja, and received charge of his duties in November 1887. He now resides with the Raja and the arrangement promises to be an excellent one and the best results are anticipated from it. The younger Raja Luxmon Rao will also take up his abode with his brother, and be also under the supervision or training of Mr. Kneller. It is satisfactory to note that Raja Raghoji has taken very kindly to the new order of things. He is now to be seen of a morning before his daily studies commence enjoying a game of "Golf" with his Tutor and other gentlemen of the station.

(*Remarks by Commissioner.*—The Rent collections, considering the unfavourable character of the seasons in Bhandara, Chanda, Raipur and part of Nagpur, are fair.

It is not possible to gather from the statements, whether balances have verily accrued in districts where there was a failure of crops or elsewhere).

(*a*) Tharsa.—(*Income Rs.* 19,209, *Liabilities Rs.* 21,429). Guja Bai Saheb died on the 1st of October 1887 and hence the name of her adopted son Ramchandra Rao Sirke has been entered instead of hers in the estate papers.

The estate was managed by the Deputy Commissioner by an order of the Civil Court under the Minors' Act (XL. of 1858). The Court of Wards assumed its management under letter No. 418-S., dated 27th April 1887, from the Junior Secretary to the Chief Commissioner.

The conduct of Ramchandra Rao Sirke was not so good during the year as it was during the previous year. He has not given up his habits of extravagance. It was reported that he had borrowed Rs. 1,500 without the knowledge of the Manager or the Deputy Commissioner. He has lately written to the Deputy Commissioner stating that the late Guja Bai Saheb has left a debt of Rs. 7,500, but as far as it is known these debts were contracted by Ramchandra Rao in the name of his adoptive mother.

(*Remarks by Commissioner.*—A close enquiry should be made into the alleged debt left by the deceased Gaja Bai.

It is perfectly useless to endeavour to save encumbered estates if their owners combine with others to deceive Government officers and get them to pay off fresh debts under the guise of old liabilities).

(*a*) Sausthanik.— (*Income Rs.* 1,23,560. *Liabilities Nil*).—Raja Azamsha continues to be a sickly child. In July 1887 he was very poorly indeed and his disease took such a serious turn that his life was despaired of. Dr. Barter for a time and Mr. Daji Ramchandra attended the child and gave every attention to him. The child is now a little over three years of age.

This estate was transferred from the Collector's charge to the management by the Court of Wards (*vide* letter No. 401 S., dated 22nd April 1887, from Junior Secretary to the Chief Commissioner.)—

The widows of the late Raja Sulemansha have submitted through the local Administration to the Secretary of State for India a memorial praying for an increase of pension granted to their adopted son Raja Azamsha the owner of this estate.

The rental demand was as follows :—

On account of current year		Rs. 57,837
Do.	arrears	„ 4,443
		62,280

and the collections were :—

On account of current year		Rs. 56,084
Do.	arrears	„ 2,278
		58,362

leaving a balance of Rs. 58,362, of which Rs. 3,041 or 4·9 per cent. is recoverble This is due to the rental in some villages being disproportionate to the Government demand. The matter was noticed in last year's report.

Expenditure has also decreased considerably. The cost of management was Rs. 6,409 or 5·1 per cent to gross assets. The Establishments were revised during the year and the new scale came into force on 1st October 1886.

The estate spent Rs. 5,437 on improvements, and a sum of Rs. 10,000 was invested in Government Promissory Notes..

(*a*) Bori. (*Income Rs.* 5,251, *Liabilities Nil*).—This estate was taken under the management of the Court of Wards during the year under report, *vide* letter No. 401 S., dated 22nd April 1887, from the Junior Secretary to the Chief Commissioner.

Doman Singh, though weakly, has been free from any disease since the last Annual Report. He attends the Bori Village school and is making good progress in his studies.

The accounts of his estate have been put in order.

(*b*) Peta Ismailpur.—(*Income Rs.* 2,308, *Liabilities Nil*).—This estate was under the management of the Deputy Commissioner, by order of the Civil Court, under the Minor's Act (XL of 1858), but under Chief Commissioner's sanction conveyed in Junior Secretary's No. 1128 S., dated 14th November 1887, it has been placed under the Court of Wards.

Seeing that the former manager Yeshwant Rao Deo Rao did not efficiently superintend the estate but left it to his clerk one Deo Rao who also mismanaged it, orders were issued to the District Manager to take it under his charge on 30th July 1887.

DISTRICT BHANDARA.

Mr. J. W. Tawney, Deputy Commissioner.

(*c*) Darekassa.—(*Income Rs.* 1,360, *Liabilities Rs.* 3,012).—The Ward is a Gond of little education and less sense. He lives at Darekassa and is about thirty-two years of age.

The estate was taken under Government management ostensibly to clear it from debt; in reality, I should judge, to put a check on the wasteful cutting of timber under a contract entered into by the zamindar. It seems occasionally to be forgotten that if an estate is taken under management it is taken subject to its liabilities of all sorts.

It is not proposed to enter into details as to what has been done in the matter of this contract, as its term has now expired and the Deputy Commissioner has entered into possession. At the same time it is to be noted that a civil suit is pending as to that part of the forest of which the lessee did not obtain possession and trouble may yet be given. Suffice it to say that the management has given the Deputy Commissioner more trouble than that of all the other estates put together.

The ward holds only a half share in the zamindari; the estate is mostly forest and the rent roll is small; the amount of rent uncollected is somewhat large; but this was on account of the bad season.

The large amount spent on establishment is owing to the special measures which had to be taken in order to prevent the contractor from entirely ruining the forest.

The tank at Darekassa was in such a bad state that Rs. 50 had to spent in repairing the embankments. The "Kamath" of two villages is given to the ward for his maintenance; but his crops almost entirely failed, and a cash allowance had to be made for his maintenance and also for the purchase of bullocks.

(*Remarks by Commissioner*:—Rent collections are not good, but the season and harvest were unfavourable. The estate has only managed to get along owing to the balance in hand at the opening of the year. The closing balance is not large).

(*c*) Kamtha.—(*Income Rs.* 76,524, *Liabilities Nil*).—The income from all sources during the year was Rs. 76,523-10-9, and the uninvested opening balance was Rs. 16,627-12-2 or a total of Rs. 93,151-6-11. The uninvested balance at close of the year was Rs. 6,595-11-0.

(*Remarks by Commissioner*—Rent collections are fair, and the amount written off is inconsiderable. The Deputy Commissioner has acted judiciously in putting so many tanks into repair at a season when labour was cheap. This work must be continued in the present year. The minor zamindar is, it is believed, doing well at school. I have frequently seen him, and at present he is well looked after).

(*b*) Gangajhari.—(*Income Rs.* 1,821, *Liabilities Nil*).—The minor has an eightanna share in this estate; the tract consists chiefly of hill and forest, the latter being of considerable value, as the proprietors have not allowed wasteful cutting in years past. The uncle of the minor who holds the other half interest in the estate gives considerable help in its management; indeed the entire collections are made through him, subject to supervision and rendition of accounts. The income is chiefly derived from sale of forest produce, the rent roll being only Rs. 344-10-0.

There is not much scope for improvement in this estate, though it is important to conserve the forests properly, and this has been done as well as possible. A sum of Rs. 150 was spent on the improvement of the tank at Gangajhari, which was in a bad state of repair, and when the earth has settled the work will be continued. This work was necessary both for the convenience of the people and for irrigation. As there was a large sum lying unused in the treasury it was deemed expedient to invest Rs. 8,200 in a mortgage on the Palkhera estate; this was done and approved of by the Local Government. The minor thus gets 6 per cent per annum on the amount, and the interest payable by the Palkhera estate is reduced by ½ per cent per annum, a benefit to both estates. The minor, Nutan Bapu, has not attended to his studies so much as could be wished. He is eighteen years of age, and well grounded in Marathi, as was ascertained by a Committee appointed to examine him. It is desirable that he should learn the rudiments of English, but to this he was averse. Perhaps he is right.

(*a*) Salekassa.—(*Income* Rs. 937, *Liabilities Nil*). This is an estate which is chiefly composed of forest; some of it is very good.

The late proprietor sold some of the best parts of his estate to a money-lender so that there is now but a small rent roll. The minors are aged ten and twelve and attend the Village School at Amgaon; they have enjoyed good health and are progressing satisfactorily with their studies. The greater part of the income is derived from forests, bamboos, firewood and grass. The cutting of valuable timber has not been allowed.

(*c*) Palkhera—(*Income* Rs. 4,174, *Liabilities* Rs. 8,200).—This is an unsatisfactory estate to manage, as it is heavily in debt and almost the only thing to do is to free it from debt. The Zamindar is about forty years old, and almost uneducated, as he can only read a little Marathi. He resides at Palkhera. There is only one village in the estate which is held direct, this can be improved by repair of the tank, but beyond that and conservation of the jungle there seems to be no prospect of doing any good to the estate.

DISTRICT BALAGHAT.

Mr. W. A. Nedham, Deputy Commissioner.

(*c*) Mao.—(*Income* Rs. 13,421, *Liabilities Nil*). Most of the villages being still leased the management has continued in the same way, as reported in last year, and the collections have been made through the Manager Court of Wards.

Fresh leases were granted for two villages during the year under report, and eight villages are under Khalsa management.

While on tour this year the Deputy Commissioner selected a site for a large tank near Lamta with the object described in last year's report. But this work will be one of some magnitude requiring skilful supervision. As there seemed to be no chance of arranging for this before the rainy season, no proposals were submitted, but this will be done now. The tanks at Kocheivara and Mao were considerably improved with the small outlay of Rs. 75 in the way indicated by the Deputy Commissioner when inspecting them during his tour.

The minor has had bad health during a great part of the year, but has continued his studies with fair regularity.

(*b*) Kirnapur.—(*Income* Rs. 10,117, *Liabilities Rs.* 1,779). All the villages are managed under the lease system except Kirnapur, Nandora, Jamdy and Kandri. As already stated in the report on the zamindaris of the district, Hira Bapu seems to be going from bad to worse; he has got beyond the age of school discipline, and is ruining his health by immoderate drinking and other vicious habits. His three younger brothers are doing fairly well, and have been attending school, either here or at Kirnapur, with tolerable regularity, but Hira Bapu's pernicious influence and example create apprehension for their future prospects.

(*Remarks by Commissioner:*—The estate will soon be free from debt; rent collection were well made. The vicious habits of the minor augur ill for the future of the estate).

(*c*). Hatta.—(*Income Rs.* 25,058, *Liabilities Rs.* 36,050.) The Zamindar Ganpat Rao continues dangerously ill, as reported to the Commissioner in this office No. 3114, dated 11th October 1887, on which the Commissioner replied that he had asked the Chief Commissioner to allow one month's extension of time (*vide* his letter No. 7088, dated 20th October 1887) for submission of the report called for by the Junior Secretary to the Chief Commissioner, namely "that unless the zamindar applies to be declared to be disqualified under the Government "Wards Act and makes over the whole of his property to the Court of Wards within three "months, the management of his estate will be thrown up."

(*c*). Bhadra.—(*Income* Rs. 14,139, *Liabilities Rs.* 37,891). In accordance with the Chief Commissioner's instructions received with Commissioner's letter No. 7957, dated 6th December 1886, a more direct management of the estate was assumed, and the zamindar was prohibited from granting any fresh leases, eleven villages being leased by the Deputy Commissioner direct.

With regard to the other debts it was explained to the zamindar that the income of the mortgaged property cannot be diverted from its proper purpose in order to pay them; and in the event of fresh debts being incurred, Government would be compelled to require the zamindar to choose between becoming a Government Ward and having the management abandoned.

Although it was not found possible to undertake any work of permanent improvement from the estate funds, the zamindar himself undertook the construction of two or three good tanks near Kulpa which he showed the Deputy Commissioner when on tour in the estate.

The enquiries made through the Executive Engineer last year showed that the proposed tank at Bagatala would cost about Rs. 6,000, so execution of the project must be postponed for a year or two until sufficient balance is accumulated.

Rs. 1,000 were paid from the estate money for Forest Takoli which in former years used to be paid by the zamindar himself. The zamindar having represented that the allowance given to him was barely sufficient, the matter was reported to the Commissioner and his sanction obtained for payment of this sum (*vide* his letter No. 1750, dated 17th March 1887).

DISTRICT RAIPUR.

Colonel, BRYCE THOMAS, Deputy Commissioner.

(*b*) Khuji.—(*Income* Rs. 24,663, *Liabilities Nil*)—Naizudin the young zamindar is now aged seventeen. He is now being educated at the Rajkumar School at Jabalpur. The result of the last examination held by the Inspector of Schools shows that the boy has made but fair progress in his studies, he having failed in four out of the twelve subjects and having been found "indifferent" in three. He is however said to be intelligent:—

The estate is perfectly solvent and has a large balance at its credit, most of which has been invested as follows:—

	Rs.	a.	p.
Four per cent promissory notes ...	3,000	0	0
Six do. loan due by the Barbaspur estate. ...	14,500	0	0
Six do. loan due by the Patan estate ...	6,000	0	0
Balance of 6 per cent loan due by Bathena estate ...	4,469	15	0
	27,969	15	0

A greater portion of the balance which amounts to Rs. 7,809-14-4 will be expended during the current year on works of improvements such as the construction of a tank, a road, a suitable building for the Zamindar and a dispensary building, consequently no portion of it has been invested.

Statement VIII. will show that as much as could well be done during the year has been done towards constructions and works of improvements in this estate. The sum of Rs. 3,285-12-5 has been expended upon the works enumerated in the statement referred to above, the most important of which are as follows :—

	Rs.	a.	p.
Road from Khuji to Bandha ...	535	15	6
Do. Dongergaon ...	528	2	0
Causeway at Chikhlakasa ...	193	9	3
Excavating Markakasa tank ...	902	1	9
Do. Ama tank ...	293	9	2
Construction of new Police lines ...	200	0	5

The new Police lines are in course of erection and will soon be completed. The large tank at Markakasa has been deepened and an estimate amounting to Rs. 913-13-6 for strengthening the bund of the tank was sanctioned during the year. The work was given to a contractor who however failed to carry it on. It will now be completed departmentally during the current year. This tank was inspected by a professional man employed specially to prepare the necessary plans and estimates of certain tank works in Khuji. It is splendidly situated and contains ample water of good quality and the work now undertaken is looked upon as a great boon by the people of Markakasa who were somewhat badly off for water before.

There is another large tank called Ayabandha which is apparently the oldest in the whole zamindari and must at one time have been a very fine tank. Just now it is only about half its orginal size, a grat part of the dam having disappeared in the course of time and a considerable portion of the bed having silted up. There used to be an extensive cultivation of sugarcane in ard about Ayabandha but owing to the difficulty of obtaining proper irrigation it has now disappeared—An estimate for Rs. 884-10-0 has been sanctioned for raising and strengthening the dam and for deepening the bed of the tank so as to restore it to its proper proportions. This work will be taken in hand during the current year and completed before the rains set in, and there is every hope that the cultivation of sugarcane will not only be restored but will gradually extend itself to even a larger area than formerly.

Forest produce required for home consumption is allowed to people on a fixed scale which varies according to the number of men in the household of a cultivator. Lists of such requirements of all heads of families have been made after enquiry and kept at the Station House, whence muafi licenses to the extent allotted for every man are issued as required. Licenses are sold by a paid license vendor at Umarwahi and the Police Moharir at Khuji who receives a commission at 3 per cent.

The forests are watched by three chaprasis, one at Ayabandha, one at Markakasa and one at Umarwahi. On the whole the system of forest conservancy in the estate seems to be working very well. A block of the forest, namely a strip lying between Nawagaon, Gidhari and Umarawahi, has been entirely closed to the axe. When the rest of the forest has been worked out, this portion will be opened and the remainder closed. There is a fair quantity of teak in the forest The lower branches of all these have been lopped off with a view to increasing the girth of the trunks. These teak loppings have been given to the people for their nistar and this has saved the forest to some extent. The right of monopoly in myrabolams has been leased to Mr. Thornton for three years. The lease will now soon expire.

The people had in former years been forbidden to take bamboos and sticks to fence in their sugarcane fields without licenses. The result of this has been that sugarcane cultivation has of late years languished considerably. During the year under report the fencing of fields

has been rightly treated as coming within legitimate home consumption and a fresh impulse has in consequence been given to sugarcane cultivation. There has been no perceptible drain on the forest on this account, because the quantity of wood used in such fencings is not nearly so great as that formerly used in fencing the enclosures of village houses. The great difficulty experienced in the forest conservancy of the estate has been its fire protection. This has now been overcome by securing the co-operation of the surrounding villages by distributing small annual payments amongst them to prevent fire in the forest.

Sanitation throughout the zamindari may safely be said to be distinctly good. Rubbish is carried to an appointed place in the fields at some distance from the village site. In some villages limits have been marked off with flags beyond which the people must go for purposes of nature. In fact no estate has, it would seem, had its conservancy arrangements better looked after. In all other respects also, Khuji appears first. It has good consolidated roads, good tanks, schools, public buildings, sarai and wells. All the buildings have been kept up in a thorough state of repair.

The five years term of settlement of this estate expired on the 31st March 1886, but owing to the Settlement operations in the Thakurtola and Barbaspur Zamindaris, statistics for a new settlement could not be collected, the old term has therefore had to be extended for two years. Settlement operations are now in progress in Khuji under the District Manager's supervision and they will be completed during the current year.

(*c*) Barbaspur.—(*Income Rs.* 7,137, *Liabilities* 12,059). In order to pay off the whole debt due to Seth Gokuldass of Jabalpur a loan of Rs. 14,590-14-3 was taken from the Khuji estate at the rate of 6 per cent per annum interest during the year under report, of which a sum of Rs. 14,587-8-5 was paid to Seth Gokul Dass in full liquidation of his debt together with interest. The estate is now indebted to the extent of Rs. 12,449-8-0 to the Khuji estate.

The most important event of the year's administration was the completion of the revised assessments of the estate. The Deputy Commissioner marched through the zamindari last January, checked the Manager's rent proposals, and framed revised assessments which have been finally reported to the Commissioner of the Division for sanction.

The new assessments were however announced to the gaontias on the spot by the Deputy Commissioner and were all accepted. They will take effect from 1st April 1887. The term of the previous settlement expired on 31st March 1885, so that it has practically been one of seven instead of five years. If the proposed revised assessments are fully sanctioned there will be an increase of Rs. 318-8-0 in the total jama, so that the cost incurred on the Settlement operations (Rs. 693-2-6) will all but be recovered in two years time.

The forest has now been managed *kham* for two years during which its income has increased from Rs. 657* to Rs. 1,158-12-6. The forest is managed on the Khalsa system and the rates of duty levied on the produce are those current in the Khalsa forest. What little timber there is is not much in demand because the rates of duty levied on produce exported from the adjoining forests of the Gandai, Silheti, and Sahaspur Lohara Zamindaris are lower. The money transactions of this estate have been much facilitated owing to the establishment of the Sub-Treasury at Thakurtola. There were no outstanding arrears at the close of the year.

Toran Singh, the young Zamindar, having it is hoped and believed been wholly cured of his pernicious habit of opium smoking, was allowed to return to his home during the year. He made no progress at all in his studies while at Raipur and exhibited a great reluctance to attend school. As he was very anxious to go to Barbaspur, and as his remaining in Raipur was only an unnecessary expense, it was thought best to allow him to return to Barbaspur for a time. He enjoyed fairly good health during the year. No complaints reflecting injuriously upon his character have been received since his return to Barbaspur.

---

*Income during sixteen months on the farming season.

(c) Thakurtola.—(*Income* Rs. 10,348 *Liabilities* Rs, 7,174). A sum of Rs. 2,200 was repaid to Bindra Nowagarh in two instalments of Rs. 1,100 each during the year under report, the debt instalment having been raised from Rs. 1,500 to Rs. 2,200. The estate will at this rate of repayment be freed from debt in another four years time or eight years earlier than was originally anticipated. This favourable state of things is due to the considerable increase of the income.

The next important event of the year's administration was the completion of the revised assessments of the estate. The Deputy Commissioner marched through the Zamindari and spent some time in personally verifying the rent rolls, checking statistics and framing revised assessments. The matter has formed the subject of a separate corespondence. The revised settlement has been sanctioned for five years in the case of 43 villages, while the backward ones, 40 in number, have to be annually leased or managed "Kham." The new demand is fixed at Rs. 2,946-4-0 for the 43 villages plus Rs. 500 on account of the remaining villages for the current year or a total of Rs. 3,446-4-0 against Rs. 2,892 of the previous settlement. The Patwari cess has been introduced at 6-4-0 per cent of the revised demand fixed for each village. This covers the cost of two Patwaris who are now employed in maintaining certain annual village papers.

The decrease of Rs. 99-12-0 visible under Cattle Pounds is due to the fact that a large amount of fines was realized in the preceeding year on a number of impounded cattle which had come from the neighbouring estate of Chhuikhadan. A portion of the forest lands on the border of the two estates was for sometime in dispute and the Thakurtola authorities had been in the habit of impounding cattle belonging to the Chhuikadan Feudatory State which were found grazing there. Several letters were sent to the Chief of Chhuikhadan on this subject of cattle trespass, but he took no notice of them beyond claiming the forest land as his own.

The Deputy Commissioner took the opportunity of his visit to Thakurtola of settling this boundary dispute in presence of the Chief, and the result has been that the Chhuikhadan people have ceased to send their cattle to graze across the border which the Deputy Commissioner laid down as the division of the two estates.

The construction of tanks at the following localities is absolutely necessary both in the interests of the estate and its people:—

(1) a tank at Thakurtola itself. (No good tank exists at this place which is the Head-quarters of the estate,)

(2) a tank at Karmadahyan,

(3) a tank at Singarpur.

The people and cattle of these three places are put to very great inconvenience for water during the hot season, and if the tanks proposed are gradually constructed much relief will be afforded to them and to the neighbouring villagers.

Looking to the great inconvenience the people have been hitherto put to for want of drinking water, the District Manager has induced the Thekadars of eleven villages to construct wells and they have all promised to complete them during the current year.

The Thekadar of Jiratola has already dug a well and intends to build it in stone masonry.

(b) Mohrenga.—(*Income* Rs. 2,303, *Liabilities Rs.* 12,095). There are three wards, all of whom are minors, aged from ten to thirteen. Two of them are reading in the 2nd and 1st English classes at the High School, Raipur, while the 3rd, the youngest, reads in the 2nd Hindi class in the Practising School. They are making fair progress and much more attention is now being paid to their education than formerly. A monthly statement showing their attendance and the progress made by them is rendered by the Head master of the High School

upon receipt of which steps are invariable taken both by the District and Assistant Managers to improve matters. All these three wards appear to be intelligent. They have enjoyed good health on the whole during the year.

(*c*) Raitum.—(*Income* Rs. 1,500 *Liabilities* Rs. 5,470). This estate comprising ten jungly villages has been, as already reported, given on a five year's lease to Fazle Karim, who has now held it for two years. As he suffered some loss last year, and the year under report was one of difficulty owing to failure of rice crops caused by lack of rain in the preceding year, he has not been able to effect any improvement in the way of extending cultivation. Some rain advances were made by the lessee during the year.

The lessee having represented that the lease of the Estate was a losing concern to him and that he had suffered a loss of upward of Rs. 300 enquiries were made by the District Manager as to the actual condition of the Estate during the year. The total assets of the estate having been found to be only Rs. 1,464. the Commissioner's sanction to reduce the annual amount of the lease from Rs. 1,900 to Rs. 1,509 was obtained in April last.

(*b*) Bindra Nawagarh.—(*Income Rs.* 49,702, *Liabilities Nil*).—The zamindar of Bindra Nawagarh, the largest and richest of all the estates under direct management, has now been managed by the Deputy Commissioner for six years.

The young zamindar, Kowal Sai, who is in his nineteenth year, was educated at the Rajkumar School at Jubbulpore up to the 31st March 1887, after which he was not allowed to continue his studies at that school under orders of the Chief Commissioner owing to his very irregular attendance during the first half year. Mr. Thompson, Inspector of Schools, in his half-yearly examination report, dated 2nd April 1887, remarked about the youth as follows :—

> " Kowal Sai was not present when the school was last examined. He has been absent a good deal owing to illness, and has not made much progress. He is a stout man indisposed to exercise and also unfitted for it both by the build of his body and his defective eyesight".

There were also some complaints against his character. He is not naturally quick, and he is inclined to be lazy. He was brought into Raipur in the beginning of the current year where he is being educated at the High School. The District Manager takes much interest in his welfare, and is doing his best to improve his character and habits generally. He has recently arranged for a private tutor on Rs. 10 per mensem to help the youth in preparing his lessons.

Although the year under report has been one of some distress to the poorer classes of cultivators in the many small jungly villages of this large estate, owing to the effects of the partial failure of crops in the preceding year, yet it is very satisfactory to note that the whole revenue of the estate, *viz.* Rs. 13,544-14-7 was recovered, leaving but a very small balance of Rs. 49-8-0 unrealized at the close of the year. This amount has however, been since realized This result is in great measure due to the District Manager who visited and saw to the different branches of the administration of this estate in September last. He is now making arrangements to have timber, bamboos, &c., cut and kept in the forest ready for floating down the river during the next rains to Rajim, where they will be sold to the best advantage. Teak has not been hitherto sold, although it is understood that there are hundreds of well grown trees standing in the forest. This is a matter which will be looked carefully into during the current year, and it is hoped that the forest revenue will hereafter shew a considerable increase.

In the matter of public works, a good deal more activity has been exhibited during the year under report than formerly; Rs. 3,232-11-6 were expended upon the different works enumerated in Statement No. VIII.

The estate consists of 336 villages which are divided into four parganas, namely, Deobhog, Kanda Dongar, Bhatigarh and Nowagarh. The people in the villages of Deobhog, Kanda

Dongar and a portion of Nowagarh pargannas, are in fairly well-to-do circumstances, while those of Bhatigarh and the greater portion of Nowagarh are said to be poor. It was in these parganas in which advances of grain had chiefly to be made to the people. In about seventy villages of this estate, a great many of the residents are said to be particularly well-to-do. There are amongst the traders fifty Mahars, thirty Banjaras and forty Pardesis who are rich, and have extensive dealings in lac, Harra, tobacco and grain.

In almost a hundred villages of Deobhog and Kandekela circles, there is an extensive manufacture of cloth of different kinds, such as Khadis, Tatpatti, coarse dhotis and saris. The weaving community consists mainly of Doni Gandas, Kurmis and Mahras.

The outturn of the rice crop for the past year was very satisfactory. The soil of the Deobhog and Kandekela villages being black cotton, cultivation is particularly good in them. Very fine rice is produced in these parts, and the gram and wheat produced is said to be larger in size than those ordinarily produced elsewhere. People from the adjoining portions of the Khalsa come to these parganas and buy cattle which they eventually dispose of by sale at the Rajim Fair.

The smelting of iron is an industry followed by many Lohars in the estate. Iron stone is also exported in carts to Khariar, Jeypur, Sehawa and Kalahandi. The duty charged by this estate on each cart is eight annas. It is said that out of a cart-load of these stones, six or seven seers of iron can be manufactured. Considering the fact that the carts used are all small ones, the duty charged is thought to be fair. Banjaras, Mahras, Musalmans and other classes of petty dealers export grain of all kinds to Saloor and Parbatipur, and on their return bring back salt, tobacco, and cloth which they sell in the bazaars and villages of this zamindari. Attempts are being made to open up the estate by the construction of good fair-weather roads in different directions, so that doubtless the traffic in the course of a few years will increase very considerably.

DISTRICT BILASPUR.

Mr. D. O. MEIKLEJOHN, Deputy Commissioner.

(c) Mahtin.—(*Income Rs.* 2,854, *Liabilities* Rs. 1,326).—No change has taken place in the family of the late zamindar, Gajrup Singh, and he is still represented by his widow Kanchan Kuar.

All the revenue has been realised, and Rs. 959-0-0 of debt have been cleared off. The balance at the credit of the estate at the close of the year was Rs. 2,122, and in the course of another year the zamindar will probably be free of debt.

(c) Katangi.—(*Income Rs.* 4,831, *Liabilities* Rs. 6,320).—This estate belongs to the Zamindar of Bilaigarh, Siva Sinha, who lives at Mowhah Porgaon, in the Bilaigarh Zamindari. It was taken under management on account of indebtedness on October 7th 1880.

There are 42 villages in the estate, of which 7 are held by inferior proprietors, and the remainder are farmed out.

A five year's settlement of the villages was made by the Deputy Commissioner, Colonel Vertue, which will expire on March 31st, 1888. Rs. 1,927-10-0 of debt have been cleared off during the year, and at the close of the year a balance of Rs. 2,298-11-4 was at the credit of the estate.

The entire debt will be repaid within three years.

The Zamindar has fallen completely under the influence of a discharged police Head Constable of bad antecedents named Mannaram who was convicted and imprisoned for criminal breach of trust, on his release from Jail he found employment with the zamindar.

The Deputy Commissioner refused to permit the Zamindar to be represented by the man in the Civil Courts, and the order was upheld in appeals filed by the Zamindar to the Commissioner and Chief Commissioner. The Zamindar, however, continues to employ the man in the transaction of his private business in disregard of all advice given him.

(*c*) Kanteli.—(*Income Rs.* 7,587, *Liabilities Rs* 26,831).—There has been no change in the family during the year. The Zamindar Ghasi Singh lives at Kanteli and his two brothers, Sahib Lall and Kanhaiya Lall, live with their father-in-law the Lohara Zamindar in the Raipur district, the youngest brother Nanhao Lall, a boy of nine, is reading at the school of Mungeli.

The estate consists of 45 villages, of which three are held by inferior proprietors, and 42 are let on farm.

The term of settlement of 20 villages expired during the year, and they were re-settled for five years.

Rupees 1,849 of the debt of the estate have been repaid during the year, but the debt is still large, and it will probably be 15 years before it is completely paid off.

It is in some respects a fortunate thing for the estate that it is encumbered with debt, and therefore under the Court of Wards management, as the Zamindar Ghassi Singh is utterly unfitted for any control over the Zamindari. He is the born companion of brawlers, madak smokers and convicted thieves and is at present under trial for complicity in a riot, during which some persons were seriously hurt by his servants, one at least of whom was armed with a talwar.

(*b*) Pendra.—(*Income Rs.* 14,792, *Liabilities Rs.* 88). This estate consists of 198 villages, of which 54 are held by inferior proprietors, 6 are muafi and the remainder are farmed out.

The estate is practically free from debt. The small sum of Rs. 88 is held in deposit for a creditor who has not appeared to receive payment.

A five years' settlement of the villages of the Zamindari made by the Deputy Commissioner, Colonel Vertue, will expire at the end of next March.

The greater part of the income is derived from land revenue and excise.

Other dues levied in the estate are "sumeli" or forest commutation payment, and kutti Biyai market dues on sales which are farmed out.

Dues levied on iron smelters and miners (Agharias) on Bhunjas (Dhya cultivators) and Dholias (bamboo workerss).

Also Mudwana or marriage registration fees, and fees levied at the toll bar at Komaghat.

The minor proprietor Indrapal Singh is 9 years old, and is reading under a private tutor at mauza, Sudwani four miles from Pendra where his mother lives.

Balbhadar Singh the uncle of the minor died in May 1887, and Rs. 500 were spent on his funeral obsequies.

The Koma ghat work is still in progress but will, it is hoped, be completed within the year.

The Rewah boundary dispute has been re-opened, and the Dewan of Rewah has asked for the map of the boundary prepared by Captain Pemberton and Mr. Totenham, Boundary Commissioners in 1867. The map however is not fothcoming in this office. It will probably be the best plan to have the boundary demarcated with masonry pillars when the exact line is fixed on and agreed to.

Mr. Abdool Gaffur, Naib Tahsildar, has given satisfaction is his management of the estate during the year, and a detailed report of his administration by him is herewith forwarded.

DISTRICT SAMBALPUR.

Mr. J. P. GOODRIDGE Deputy Commr.

(c) Ghes.—(*Income Rs.* 2,386, *Liabilities Rs.* 11,003).—Rs. 1,000 were remitted during the year to Messrs. Gokul Dass Ballab Dass of Jubbulpore on account of the year's instalment. Out of this sum Rs. 943-13-0 were applied in payment of interest and Rs. 56-3-0 in liquidation of a portion of the debt. Rs. 10-6-0 shown against the head "Miscellaneous" (Statement III.) represents principally the charge for remitting the above instalment.

Out of Rs. 2,627-14-0 the Rental demand for the year, there remained to be realized at the close of the year a balance of Rs. 262-4-0. This was due to last year's drought in these parts when the rice crop almost entirely failed. The people were afterwards attacked by cholera and left their homes. The outstanding balances will be realized as soon as the present harvest is over.

(a) Borasambar.—(*Income Rs.* 15,179, *Liabilities Rs.* 6,688).—This large estate was managed during the year by the joint manager of Phuljhar and Borasambar.

The minor Zamindar died during the year while at Sambalpur where he had been brought to pursue his studies. The lad was very delicate and notwithstanding his removal from his very malarial home in the midst of the forests there was no improvement in his health. He gradually succumbed to a consuming fever in the middle of the year. He was succeeded by his second brother Purendra Singh aged nine years. It has been arranged that the minor Zamindar shall be educated at Sambalpur, under the direction and care of the Principal of the Sambalpur High School, who has for this purpose been appointed guardian of his person.

During the year four schools were opened and are making good progress. Every branch of the administration of this valuable and extensive estate is now in an efficient condition. The police are working well and all classes of cultivators enjoy security of tenure and light rents.

During the present season enquiries have been made into the land tenures of this Zamindari, with a view to effecting a new settlement. The villages are held on short leases of three years, and on each renewal of a lease the ticcadar pays a nazar or premium for his bhogra, and the new land brought under cultivation. The ryoti rents have not been raised for many years, and it is believed that there has been a large extension of cultivation during recent years. It is therefore proposed to ascertain the present area of cultivation by actual measurement, revise ryoti rents and to substitute, as has recently been done in other states, an annual payment as rent for bhogra in lieu of the periodical nazarana or premia.

(a) Phuljhar.—(*Income Rs.* 19,276, *Liabilities Rs.* 53,000).—During the year the enquiry into the debts and liabilities against this estate was completed and sanction obtained for payment. There is a considerable balance in the Treasury to the credit of the estate but it will be necessary to effect a loan of Rs. 34,000 to pay off all claims and also to release its extensive forests from the pernicious usufructuary mortgage to which it was subject. Sanction having been obtained to this course, a loan of Rs. 34,000 was negotiated with Messrs. Gokuldass Ballab Dass of Jubbulpore and this will permit of all the debts against the estate being paid off at once. It will also release the valuable forests of the estate from a most destructive system of working by which they are being fast destroyed. Several debts which carried interest at exorbitant rates have been replaced by a single debt at a very moderate rate of interest (6 per cent). And the management and use of the forests have been placed on a satisfactory working basis.

During the present season enquiries have been made into the land tenures of the Zamindari with a view to a settlement of the estate. Various difficulties have been created by the custom which prevailed in the Ranis' time of making over portions of the estate for a term of years in payment of debt. This has resulted in the introduction of a set of grasping and unscrupulous foreigners who greatly disturb the peace and prosperity of the children of the soil and who are perpetually engaged in land litigation.

The misdeeds of the dishonest servants of the old Ranis have created a most difficult state of things, and it will need much care and thought to place the land revenue affairs of the estate on a satisfactory basis. The Deputy Commissioner hopes to be able shortly to submit definite proposals for a land settlement with a view to obtaining a measurement of the cultivated area, the fixing of ryoti rents at equitable rates; and the payment of nazarana by gaontias for the bhogra lands giving place to an annual payment. It is many years since the ryoti rents were fixed and cultivation has since been immensely extended. The Eastern road passes through this estate and although much of the soil is light and poor, the estate from its position and suitability for cotton and sugarcane renders its income capable of great development.
